NOTE 1 - GENERAL:

The condensed consolidated financial statements as of May 4, 2024 and for the thirteen-week periods ended May 4, 2024 and April 29, 2023 have been prepared from the accounting records of The Cato Corporation and its wholly-owned subsidiaries (the "Company"), and all amounts shown are unaudited. In the opinion of management, all adjustments considered necessary for a fair presentation of the financial statements have been included. All such adjustments are of a normal, recurring nature unless otherwise noted. The results of the interim period may not be indicative of the results expected for the entire year.

The interim financial statements should be read in conjunction with the consolidated financial statements and notes thereto, included in the Company's Annual Report on Form 10-K for the fiscal year ended February 3, 2024. Amounts as of February 3, 2024 have been derived from the audited balance sheet, but do not include all disclosures required by accounting principles generally accepted in the United States of America.

On February 16, 2024, the Company closed on the sale of land held for investment. The sale resulted in a net gain of \$3.2 million and is included in Interest and other income in the accompanying Condensed Consolidated Statements of Income and Comprehensive Income for the period ended May 4, 2024.

On May 23, 2024, the Board of Directors maintained the quarterly dividend at \$ 0.17 per share.

NOTE 2 - EARNINGS PER SHARE:

Accounting Standard Codification ("ASC") 260 – *Earnings Per Share* requires dual presentation of basic and diluted Earnings Per Share ("EPS") on the face of all income statements for all entities with complex capital structures. The Company has presented one basic EPS and one diluted EPS amount for all common shares in the accompanying Condensed Consolidated Statements of Income and Comprehensive Income. While the Company's certificate of incorporation provides the right for the Board of Directors to declare dividends on Class A shares without declaration of commensurate dividends on Class B shares, the Company has historically paid the same dividends to both Class A and Class B shareholders and the Board of Directors has resolved to continue this practice. Accordingly, the Company's allocation of income for purposes of the EPS computation is the same for Class A and Class B shares and the EPS amounts reported herein are applicable to both Class A and Class B shares.

Basic EPS is computed as net income less earnings allocated to non-vested equity awards divided by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur from common shares issuable through stock options and the Employee Stock Purchase Plan.

NOTE 4 – FINANCING ARRANGEMENTS:

At May 4, 2024, the Company had an unsecured revolving credit agreement, which provides for borrowings of up to \$35.0 million less the balance of any revocable letters of credit related to purchase commitments, and is committed through May 2027. The credit agreement contains various financial covenants and limitations, including the maintenance of specific financial ratios. On April 25, 2024, the Company amended the revolving credit agreement to modify a definition used in calculating the Company's minimum EBITDAR coverage ratio to add back certain income tax receivables included in the calculation of the ratio. For the quarter ended May 4, 2024, after giving effect to the amendment, the Company was in compliance with the credit agreement. There were no borrowings outstanding, nor any outstanding letters of credit that reduced borrowing availability, as of May 4, 2024. The weighted average interest rate under the credit facility was zero at May 4, 2024 due to no outstanding borrowings.

NOTE 5 – REPORTABLE SEGMENT INFORMATION:

The Company has determined that it has four operating segments, as defined under ASC 280 – *Segment Reporting*, including Cato, It's Fashion, Versona and Credit. As outlined in ASC 280-10, the Company has two reportable segments: Retail and Credit. The Company has aggregated its three retail operating segments, including e-commerce, based on the aggregation criteria outlined in ASC 280-10, which states that two or more operating segments may be aggregated into a single reportable segment if aggregation is consistent with the objective and basic principles of ASC 280-10, which require the segments to have similar economic characteristics, products, production processes, clients and methods of distribution.

The Company's retail operating segments have similar economic characteristics and similar operating, financial and competitive risks. The products sold in each retail operating segment are similar in nature, as they all offer women's apparel, shoes and accessories. Merchandise inventory of the Company's retail operating segments is sourced from the same countries and some of the same vendors, using similar production processes. Merchandise for the Company's retail operating segments is distributed to retail stores in a similar manner through the Company's single distribution center and is subsequently distributed to customers in a similar manner.

The Company operates its women's fashion specialty retail stores in 31 states as of May 4, 2024, principally in the southeastern United States. The Company offers its own credit card to its customers and all credit authorizations, payment processing and collection efforts are performed by separate wholly-owned subsidiaries of the Company.

As of May 4, 2024, the Company had the 2018 Incentive Compensation Plan for the granting of various forms of equity-based awards, including restricted stock and stock options for grant to officers, directors and key employees.

The following table presents the number of options and shares of restricted stock initially authorized and available for grant under this plan as of May 4, 2024:

In accordance with ASC 718 – *Compensation–Stock Compensation*, the fair value of current restricted stock awards is estimated on the date of grant based on the market price of the Company's stock and is amortized to compensation expense on a straight-line basis over the related vesting periods. As of May 4, 2024 and February 3, 2024, there was \$11,103,000 and \$9,334,000, respectively, of total unrecognized compensation expense related to unvested restricted stock awards, which had a remaining weighted-average vesting period of 3.0 years and 2.1 years, respectively. The total compensation benefit during the three months ended May 4, 2024 was \$66,000 compared to an expense of \$932,000 for the three months ended April 29, 2023. This compensation activity is classified as a component of Selling, general and administrative expenses in the Condensed Consolidated Statements of Income.

The Company's investment portfolio was primarily invested in corporate bonds and tax-exempt and taxable governmental debt securities held in managed accounts with underlying ratings of A or better at May 4, 2024 and February 3, 2024. The state, municipal and corporate bonds and asset-backed securities have contractual maturities which range from seven days to 3.0 years. The U.S. Treasury/Agencies Notes and Bonds have contractual maturities which range from 2 months to 1.8 years. These securities are classified as available-for-sale and are recorded as Short-term investments and Other assets on the accompanying Condensed Consolidated Balance Sheets. These assets are carried at fair value with unrealized gains and losses reported net of taxes in Accumulated other comprehensive income. The asset-backed securities are bonds comprised of auto loans and bank credit cards that carry AAA ratings. The auto loan asset-backed securities are backed by static pools of auto loans that were originated and serviced by captive auto finance units, banks or finance companies. The bank credit card asset-backed securities are backed by revolving pools of credit card receivables generated by account holders of cards from American Express, Citibank, JPMorgan Chase, Capital One, and Discover.

Additionally, at May 4, 2024, the Company had \$0.1 million of corporate equities and deferred compensation plan assets of \$8.7 million. At February 3, 2024, the Company had \$1.1 million of corporate equities and deferred compensation plan assets of \$8.6 million. All of these assets are recorded within Other assets in the Condensed Consolidated Balance Sheets.

Level 1 category securities are measured at fair value using quoted active market prices. Level 2 investment securities include corporate and municipal bonds for which quoted prices may not be available on active exchanges for identical instruments. Their fair value is principally based on market values determined by management with the assistance of a third-party pricing service. Since quoted prices in active markets for identical assets are not available, these prices are determined by the pricing service using observable market information such as quotes from less active markets and/or quoted prices of securities with similar characteristics, among other factors.

Deferred compensation plan assets consist of life insurance policies. These life insurance policies are valued based on the cash surrender value of the insurance contract, which is determined based on such factors as the fair value of the underlying assets and discounted cash flow and are therefore classified within Level 3 of the valuation hierarchy. The Level 3 liability associated with the life insurance policies represents a deferred compensation obligation, the value of which is tracked via underlying insurance funds' net asset values, as

recorded in Other noncurrent liabilities in the Condensed Consolidated Balance Sheet. These funds are designed to mirror mutual funds and money market funds that are observable and actively traded.

The following tables summarize the change in fair value of the Company's financial assets and liabilities measured using Level 3 inputs as of May 4, 2024 and February 3, 2024 (dollars in thousands):

NOTE 8 – RECENT ACCOUNTING PRONOUNCEMENTS:

In November 2023, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2023-07, "Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures", which modifies disclosure requirements for all public entities that are required to report segment information. The update will change the reporting of segments by adding significant segment expenses, other segment items, title and position of the chief operating decision maker ("COD") and how the COD uses the reported measures to make decisions. The update also requires all annual disclosure about a reportable segment's profit or loss and assets in interim periods. This guidance is effective for fiscal years beginning after December 15, 2023 and interim periods within fiscal years beginning after December 15, 2023 and interim periods within fiscal years beginning after periods presented in the financial statements. The Company is currently in the process of evaluating the potential impact of adoption of this new guidance on its consolidated financial statements and related disclosures.

In December 2023, the FASB issued ASU 2023-09, "Income Taxes (Topic 740): Improvements to Income Tax Disclosures", which modifies the requirements on income tax disclosures to require disaggregated information about a reporting entity's effective tax rate reconciliation as well as information on income taxes paid. This guidance is effective for fiscal years beginning after December 15, 2024 for all public business entities, with early adoption and retrospective application permitted. The Company is currently in the process of evaluating the potential impact of adoption of this new guidance on its consolidated financial statements and related disclosures.

NOTE 9 – INCOME TAXES:

The Company had an effective tax rate for the first quarter of 2024 of 5.6% compared to an effective tax rate of 32.6% for the first quarter of 2023. Income tax expense for the quarter decreased to \$0.6 million in 2024 from \$2.1 million in 2023. The decrease in tax expense is primarily due to valuation allowances against net deferred tax assets attributable to U.S. federal net operating loss carryforwards and the impact of the foreign rate differential and lower state income taxes.

NOTE 10 – COMMITMENTS AND CONTINGENCIES:

The Company is, from time to time, involved in routine litigation incidental to the conduct of its business, including litigation regarding the merchandise that it sells, litigation regarding intellectual property, litigation instituted by persons injured upon premises under its control, litigation with respect to various employment matters, including alleged discrimination and wage and hour litigation, and litigation with present or former employees.

Although such litigation is routine and incidental to the conduct of the Company's business, as with any business of its size with a significant number of employees and significant merchandise sales, such litigation could result in large monetary awards. Based on information currently available, management does not believe that any reasonably possible losses arising from current pending litigation will have a material adverse effect on its condensed consolidated financial statements. However, given the inherent uncertainties involved in such matters, an adverse outcome in one or more of such matters could materially and adversely affect the Company's financial condition, results of operations and cash flows in any particular reporting period. The Company accrues for these matters when the liability is deemed probable and reasonably estimable.

NOTE 11 – REVENUE RECOGNITION:

The Company recognizes sales at the point of purchase when the customer takes possession of the merchandise and pays for the purchase, generally with cash or credit. Sales from purchases made with Cato credit, gift cards and layaway sales from stores are also recorded when the customer takes possession of the merchandise. E-commerce sales are recorded when the risk of loss is transferred to the customer. Gift cards are recorded as deferred revenue until they are redeemed or forfeited. Gift cards do not have expiration dates. Layaway transactions are recorded as deferred revenue until the customer takes possession or forfeits the merchandise. A provision is made for estimated merchandise returns based on sales volumes and the Company's experience; actual returns have not varied materially from historical amounts. A provision is made for estimated write-offs associated with sales made with the Company's proprietary credit card. Amounts related to shipping and handling billed to customers in a sales transaction are classified as Cost of goods sold.

The Company offers its own proprietary credit card to customers. All credit activity is performed by the Company's wholly-owned subsidiaries. None of the credit card receivables are secured. The Company estimated customer credit losses of \$171,000 and \$121,000 for the periods ended May 4, 2024 and April 29, 2023, respectively, on sales purchased by the Company's proprietary credit card of \$5.7 million and \$5.8 million for the periods ended May 4, 2024 and April 29, 2023, respectively.

The following table provides information about receivables and contract liabilities from contracts with customers (in thousands):

NOTE 12 – LEASES:

The Company determines whether an arrangement is a lease at inception. The Company has operating leases for stores, offices, warehouse space and equipment. Its leases have remaining lease terms of up to 10 years, some of which include options to extend the lease term for up to five years, and some of which include options to terminate the lease within one year . The Company considers these options in determining the lease term used to establish its right-of-use assets and lease liabilities. The Company's lease agreements do not contain any material residual value guarantees or material restrictive covenants.

As most of the Company's leases do not provide an implicit rate, the Company uses its estimated incremental borrowing rate based on the information available at commencement date of the lease in determining the present value of lease payments.

The components of lease cost are shown below (in thousands):

| | Three Months Ended | | | | |
|--------------------------|--------------------|-------------|----------------|--|--|

CRITICAL ACCOUNTING POLICIES AND ESTIMATES:

The Company's critical accounting policies and estimates are more fully described in "Management's Discussion and Analysis of Financial Condition and Results of Operations" in the Company's Annual Report on Form 10-K for the fiscal year ended February 3, 2024. The preparation of the Company's financial statements in conformity with generally accepted accounting principles in the United States ("GAAP") requires management to make estimates and assumptions about future events that affect the amounts reported in the financial statements and accompanying notes. Future events and their effects cannot be determined with absolute certainty. Therefore, the determination of estimates requires the exercise of judgment. Actual results inevitably will differ from those estimates, and such differences may be material to the financial statements include the calculation of potential asset impairment, income tax valuation allowances, reserves relating to self-insured health insurance, workers' compensation, general and auto insurance liabilities, uncertain tax positions, the allowance for customer credit losses, and inventory shrinkage.

The Company's critical accounting policies and estimates are discussed with the Audit Committee.

RESULTS OF OPERATIONS(CONTINUED):

Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") is intended to provide information to assist readers in better understanding and evaluating our financial condition and results of operations. We recommend reading this MD&A in conjunction with our Condensed Consolidated Financial Statements and the Notes to those statements included in the "Financial Statements" section of this Quarterly Report on Form 10-Q, as well as our 2023 Annual Report on Form 10-K.

Recent Developments

Inflationary Cost Pressure and High Interest Rates

The pressure on our customers' disposable income continued in the first quarter of fiscal 2024, due to prolonged and persistently high inflation rates, especially related to housing and fuel, as well as high interest rates. These high interest rates have adversely affected the availability and cost of credit for our customers, including revolving credit and auto loans, and continue to negatively impact our customers' disposable income. Our customers' willingness to purchase our products may continue to be negatively impacted by these inflationary pressures and high interest rates.

We believe continued inflation and high interest rates negatively impacted the first quarter of 2024 and will likely continue to have a negative impact on consumer behavior and, by extension, our results of operations and financial condition during the remainder of fiscal 2024.

Merchandise Supply Chain

A significant amount of our merchandise is manufactured overseas, principally Southeast Asia, and traverses through the Panama Canal or the Suez Canal. The regional drought conditions experienced in the region surrounding the Panama Canal reduced the number of transits by approximately 37% and has also reduced the permissible draft of vessels transiting the Panama Canal, which reduced the volume and number of containers carried by container ships and increased our costs in the first quarter. During the second quarter, the Panama Canal authority plans to increase the daily transits by 33% and increase the permissible draft of vessels depending on weather conditions. The hostilities affecting the region surrounding the Suez Canal are causing container ships to travel longer distances around the Cape of Good Hope, which is increasing lead times for merchandise and our costs to ship these goods as well as decreasing the pool of containers available. Both of these situations have negatively impacted 2024. Though conditions in the Panama Canal could incrementally improve if weather conditions allow the easing of existing restrictions, we believe the totality of these conditions will likely continue to have a negative impact on our results of operations and financial condition for the foreseeable future.

Comparison of First Quarter of 2024 with 2023

Total retail sales for the first quarter were \$175.3 million compared to last year's first quarter sales of \$190.3 million. Sales decreased primarily due to a decrease in same-store sales and sales from stores that were closed in the past 12 months, partially offset by sales from stores opened in the past 12 months. The decrease in same-store sales is primarily from fewer transactions due to the aforementioned pressures on our customers' disposable income, as well as lower average sales per transaction. Same store sales include stores that have been open more than 15 months. Stores that have been relocated or expanded are also included in the same store sales calculation after they have been open more than 15 months. The method of calculating

same store sales varies across the retail industry. As a result, our same store sales calculation may not be comparable to similarly titled measures reported by other companies. E-commerce sales were less than 5.0% of sales for the first quarter of fiscal 2024 and are included in the same-store sales calculation. Total revenues, comprised of retail sales and other revenue (principally finance charges and late fees on customer accounts receivable, shipping charged to customers for e-commerce purchases and layaway fees), were \$177.1 million for the first quarter ended May 4, 2024, compared to \$192.1 million for the first quarter ended April 29, 2023. The Company operated 1,171 stores at May 4, 2024 compared to 1,264 stores at the end of last fiscal year's first quarter. For the first three months of fiscal 2024, the Company permanently closed seven stores. The Company currently anticipates closing approximately 75 stores in fiscal 2024.

Credit revenue of \$0.7 million represented 0.4% of total revenues in the first quarter of fiscal 2024, compared to 2023 credit revenue of \$0.6 million or 0.3% of total revenues. Credit revenue is comprised of interest earned on the Company's private label credit card portfolio and related fee income. Related expenses include principally payroll, postage and other administrative expenses, and totaled \$0.4 million in the first quarter of 2024, compared to last year's first quarter expenses of \$0.4 million.

Other revenue, a component of total revenues, was \$1.8 million for the first quarter of fiscal 2024, compared to \$1.7 million for the prior year's comparable first quarter. The slight increase was due to higher gift card breakage income and late charges, partially offset by lower e-commerce shipping revenue and layaway fees.

Cost of goods sold was \$112.5 million, or 64.2% of retail sales for the first quarter of fiscal 2024, compared to \$122.1 million, or 64.2% of retail sales in the first quarter of fiscal 2023. Cost of goods sold includes merchandise costs (net of discounts and allowances), buying costs, distribution costs, occupancy costs, freight and inventory shrinkage. Net merchandise costs and in-bound freight are capitalized as inventory costs. Buying and distribution costs include payroll, payroll-related costs and operating expenses for the buying departments and distribution center. Occupancy costs include rent, real estate taxes, insurance, common area maintenance, utilities and maintenance for stores and distribution facilities. Total gross margin dollars (retail sales less cost of goods sold exclusive of depreciation) decreased by 8.0% to \$62.8 million for the first quarter of fiscal 2024 compared to \$68.2 million in the first quarter of fiscal 2023. Gross margin as presented may not be comparable to those of other entities.

Selling, general and administrative expenses ("SG&A") primarily include corporate and store payroll, related payroll taxes and benefits, insurance, supplies, advertising, and bank and credit card processing fees. SG&A expenses were 32.4% of retail sales for the first quarter of fiscal 2024, compared to 32.5% of retail sales in the first quarter of fiscal 2023. SG&A expense is lower in the first quarter of fiscal 2024 compared to the first quarter of fiscal 2023 primarily due to lower equity compensation, advertising and store expenses, including payroll, partially offset by an increase in insurance expense.

Depreciation expense was \$2.0 million, or 1.2% of retail sales for the first quarter of fiscal 2024, compared to \$2.4 million, or 1.2% of retail sales for the first quarter of fiscal 2023. The decrease in depreciation expense was attributable to older stores being fully depreciated.

Interest and other income was \$5.8 million, or 3.3% of retail sales for the first quarter of fiscal 2024, compared to \$0.9 million, or 0.5% of retail sales for the first quarter of fiscal 2023. The increase was primarily due to a \$3.2 million net gain on sale of land held for investment.

Income tax expense was 0.6 million or 0.4% of retail sales for the first quarter of fiscal 2024, compared to income tax expense of 2.1 million, or 1.1% of retail sales for the first quarter of fiscal 2023. The effective

income tax rate for the first quarter of fiscal 2024 was 5.6% compared to 32.6% for the first quarter of 2023. The decrease in tax expense is primarily due to the valuation allowance against net deferred tax assets attributable to U.S. federal net operating loss carryforwards and the impact of the foreign rate differential and lower state income taxes.

LIQUIDITY, CAPITAL RESOURCESAND MARKETRISK:

The Company believes that its cash, cash equivalents and short-term investments, together with cash flows from operations and borrowings available under its revolving credit agreement, will be adequate to fund the Company's regular operating requirements and expected capital expenditures for the next 12 months.

Cash provided by operating activities for the first three months of fiscal 2024 was primarily generated by earnings adjusted for depreciation and changes in working capital. The decrease in cash provided of \$4.2 million for the first three months of fiscal 2024 as compared to the first three months of fiscal 2023 was primarily attributable to the relative change in inventory from year-end to the first quarter for both years and a decrease to first quarter 2024 net income for non-operating gain on sale of assets held for investment.

At May 4, 2024, the Company had working capital of \$65.8 million compared to \$55.1 million at February 3, 2024. The increase is primarily attributable to an increase in cash and cash equivalents, inventory, accounts receivable and lower current lease liability, partially offset by lower short-term investments.

At May 4, 2024, the Company had an unsecured revolving credit agreement, which provides for borrowings of up to \$35.0 million less the balance of any revocable letters of credit related to purchase commitments, and is committed through May 2027. The credit agreement contains various financial covenants and limitations, including the maintenance of specific financial ratios. On April 25, 2024, the Company amended the revolving credit agreement to modify a definition used in calculating the Company's minimum EBITDAR coverage ratio to add back certain income tax receivables included in the calculation of the ratio. For the quarter ended May 4, 2024, after giving effect to the amendment, the Company was in compliance with the credit agreement. There were no borrowings outstanding, nor any outstanding letters of credit that reduced borrowing availability, as of May 4, 2024. The weighted average interest rate under the credit facility was zero at May 4, 2024 due to no outstanding borrowings.

Expenditures for property and equipment totaled \$3.3 million in the first three months of fiscal 2024, compared to \$6.2 million in last year's first three months. The decrease in expenditures for property and equipment was primarily due to lower capital investments in information technology and the distribution center, as well as no new store openings in the first quarter of fiscal 2024. For the full fiscal 2024 year, the Company expects to invest approximately \$9.0 million in capital expenditures, including distribution center automation projects.

Net cash provided by investing activities totaled \$14.6 million in the first three months of fiscal 2024 compared to \$15.3 million provided in the comparable period of fiscal 2023. The decrease is primarily due to an increase in purchases of short-term investments and a decrease in sales of short-term investments, partially offset by the sale of other assets and a decrease in capital expenditures.

Net cash used in financing activities totaled \$5.6 million in the first three months of fiscal 2024 and fiscal 2023.

On May 23, 2024, the Board of Directors maintained the quarterly dividend at 0.17 per share.

As of May 4, 2024, the Company had 478,238 shares remaining in open authorizations under its share repurchase program.

The Company does not use derivative financial instruments.

The Company's investment portfolio was primarily invested in corporate bonds and tax-exempt and taxable governmental debt securities held in managed accounts with underlying ratings of A or better at May 4, 2024 and February 3, 2024. The state, municipal and corporate bonds and asset-backed securities have contractual maturities which range from seven days to 3.0 years. The U.S. Treasury/Agencies Notes and Bonds have contractual maturities which range from 2 months to 1.8 years. These securities are classified as available-for-sale and are recorded as Short-term investments and Other assets on the accompanying Condensed Consolidated Balance Sheets. These assets are carried at fair value with unrealized gains and losses reported net of taxes in Accumulated other comprehensive income. The asset-backed securities are bonds comprised of auto loans and bank credit cards that carry AAA ratings. The auto loan asset-backed securities are backed by static pools of auto loans that were originated and serviced by captive auto finance units, banks or finance companies. The bank credit card asset-backed securities are backed by revolving pools of credit card receivables generated by account holders of cards from American Express, Citibank, JPMorgan Chase, Capital One, and Discover.

Additionally, at May 4, 2024, the Company had \$0.1 million of corporate equities and deferred compensation plan assets of \$8.7 million. At February 3, 2024, the Company had \$1.1 million of corporate equities and deferred compensation plan assets of \$8.6 million. All of these assets are recorded within Other assets in the Condensed Consolidated Balance Sheets. See Note 7, Fair Value Measurements.
