CATO REPORTS DECLINE IN 1Q EPS Provides Update on Full-Year Guidance

CHARLOTTE, N.C. (May 18, 2017) – The Cato Corporation (NYSE: CATO) today reported net income of \$22.2 million or \$.85 per diluted share for the first quarter ended April 29, 2017, compared to net income of \$35.9 million or \$1.29 per diluted share for the first quarter ended April 30, 2016. Net income decreased 38% and earnings per diluted share decreased 34% for the quarter. Sales for the first quarter were \$237.7 million, or a decrease of 17% from sales of \$285.5 million for the first quarter ended April 30, 2016. The Company's same-store sales for the quarter decreased 17% to last year.

"Our negative sales trend persisted throughout the first quarter, impacting margins and earnings as we continued to work through our merchandise missteps," stated John Cato, Chairman, President, and Chief Executive Officer. "It is taking longer to work through these issues than expected and the remainder of the year will be impacted. We expect earnings for the year to be below last year."

Gross margin decreased 390 basis points to 38.7% of sales in the quarter, primarily due to lower merchandise margins and deleveraging of buying and occupancy costs. SG&A expenses as a percent of sales increased 190 basis points to 26.8% during the quarter primarily due to deleveraging of store expenses, offset by lower incentive compensation. The effective tax rate decreased to 14.7% versus the prior year at 28.5% due to reduced earnings, ongoing tax saving initiatives and favorable tax adjustments in the quarter. The Company ended the quarter with cash and short-term investments of \$235.0 million.
