#### NOTE 1 - GENERAL:

The condensed consolidated financial statements as of May 1, 2021 and for the thirteen-week periods ended May 1, 2021 and May 2, 2020 have been prepared from the accounting records of The Cato Corporation and its wholly-owned subsidiaries (the "Company"), and all amounts shown are unaudited. In the opinion of management, all adjustments considered necessary for a fair presentation of the financial statements have been included. All such adjustments are of a normal, recurring nature unless otherwise noted. The results of the interim period may not be indicative of the results expected for the entire year.

The interim financial statements should be read in conjunction with the consolidated financial statements and notes thereto, included in the Company's Annual Report on Form 10-K for the fiscal year ended January 30, 2021. Amounts as of January 30, 2021 have been derived from the audited balance sheet, but do not include all disclosures required by accounting principles generally accepted in the United States of America.

On May 20, 2021, the Board of Directors declared the quarterly dividend at \$0.11 per share.

#### **COVID-19 Update**

The COVID-19 pandemic adversely impacted the Company's business, financial condition and operating results through fiscal 2020. The first quarter of 2021 saw significant improvements in sales compared to 2020. This improvement was primarily attributable to government stimulus, increased customer traffic, states continuing to lift capacity limits as more people are vaccinated, consumers' increasing comfort level with venturing out to social events and customers' preparing to return to work. However, the Company's sales were well below 2019 sales for the comparable period, and there is still a high level of uncertainty regarding the lingering effects of the COVID-19 pandemic and the continued impact on the Company's customers' buying habits. The Company faces additional uncertainty from the continued effects of disruption in the global supply chain and available workers as it attempts to hire associates as its operating hours continue to expand. The Company expects that these uncertainties and perhaps others related to the pandemic will continue to impact the Company in fiscal 2021 and possibly beyond. The adverse financial impacts associated with the continued effects of, and uncertainties related to, the COVID-19 pandemic include, but are not limited to, (i) lower net sales in markets affected by the actual or potential outbreak, whether due to state and local orders, reductions in store traffic and customer demand, labor shortages, or all of these factors, (ii) lower net sales caused by the delay of inventory production and fulfillment, (iii) and incremental costs associated with efforts to mitigate the effects of the outbreak, including increased freight and logistics costs and other expenses.

The extent to which the COVID -19 pandemic ultimately impacts the Company's business, financial condition, results of operations, cash flows, and liquidity may differ from management's current estimates due to inherent uncertainties regarding the duration and further spread of the outbreak or its variants, its severity, actions taken to contain the virus or treat its impact, and how quickly and to what extent normal economic and operating conditions can resume.

While the Company currently anticipates a continuation of the adverse impacts of COVID-19 during 2021 and possibly beyond, the duration and severity of these effects will depend on the course of future developments, which are highly uncertain, including the relative speed and success of, as well as public confidence in, mitigation measures such as the current effort to vaccinate substantial portions of the U.S. and global population, emerging information regarding variants of the virus or new viruses and their

potential impact on current mitigation efforts, public attitudes toward continued compliance with containment and mitigation measures, and possible new information and understanding that could alter the course and duration of current measures to combat the spread of the virus.

#### Recently Adopted Accounting Policies

In December 2019, the FASB issued ASU 2019-12, *Income Taxes (Topic 740): Simplifying the Accounting for Income Taxes*. The new accounting rules reduce complexity by removing specific exceptions to general principles related to intraperiod tax allocations, ownership changes in foreign investments, and interim period income tax accounting for year-to-date losses that exceed anticipated losses. The new accounting rules also simplify accounting for franchise taxes that are partially based on income, transactions with a government that result in a step up in the tax basis of goodwill, separate financial statements of legal entities that are not subject to tax, and enacted changes in tax laws in interim periods. The Company adopted this accounting standards update on the first day of the first quarter of 2021 with no material impact on its Condensed Consolidated Financial Statements.

#### **NOTE 2 - EARNINGS PER SHARE:**

Accounting Standard Codification ("ASC") 260 – *Earnings Per Share* requires dual presentation of basic and diluted Earnings Per Share ("EPS") on the face of all income statements for all entities with complex capital structures. The Company has presented one basic EPS and one diluted EPS amount for all commonshares in the accompanying Condensed Consolidated Statements of Income (Loss) and Comprehensive Income (Loss). While the Company's certificate of incorporation provides the right for the Board of Directors to declare dividends on Class A shares without declaration of commensurated ividends on Class B shares, the Company has historically paid the same dividends to both Class A and Class B shareholders and the Board of Directors has resolved to continue this practice. Accordingly, the Company's allocation of income for purposes of the EPS computation is the same for Class A and Class B shares and the EPS amounts reported herein are applicable to both Class A and Class B shares.

Basic EPS is computed as net income less earnings allocated to non-vested equity awards divided by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur from common shares issuable through stock options and the Employee Stock Purchase Plan.

<sup>(</sup>b) Includes \$51 impact of accumulated other comprehensive income reclassifications into Interest and other income for net gains on available-for-sale securities. The tax impact of this reclassification was \$12.

<sup>(</sup>b) Includes \$655 impact of accumulated other comprehensive income reclassifications into Interest and other income for net gains on available-for sale securities. The tax impact of this reclassification was \$151.

#### **NOTE 4 – FINANCING ARRANGEMENTS:**

As of May 1, 2021, the Company had an unsecured revolving credit agreement allowing the Company to borrow \$35.0 million less the balance of any letters of credit as discussed below. On June 2, 2020, the Company signed an amendment extending the revolving credit agreement through May 2023. The credit agreement contains various financial covenants and limitations, including the maintenance of specific financial ratios with which the Company was in compliance as of May 1, 2021. There were no borrowings outstanding under this credit facility as of May 1, 2021 or January 30, 2021. The weighted average interest rate under the credit facility was zero at May 1, 2021 due to no borrowingsoutstanding.

At May 1, 2021 and January 30, 2021, the Company had no outstanding letters of credit relating to purchase commitments.

#### NOTE 5 – REPORTABLE SEGMENT INFORMATION:

The Company has determined that it has four operating segments, as defined under ASC 280-10, including Cato, It's Fashion, Versona and Credit. As outlined in ASC 280-10, the Company has two reportable segments: Retail and Credit. The Company has aggregated its three retail operating segments, including ecommerce, based on the aggregation criteria outlined in ASC 280-10, which states that two or more operating segments may be aggregated into a single reportable segment if aggregation is consistent with the objective and basic principles of ASC 280-10, which require the segments to have similar economic characteristics, products, production processes, clients and methods of distribution.

The Company's retail operating segments have similar economic characteristics and similar operating, financial and competitive risks. They are similar in nature of product, as they all offer women's apparel, shoes and accessories. Merchandise inventory for the Company's retail operating segments is sourced from the same countries and some of the same vendors, using similar production processes. Merchandise for the Company's operating segments is distributed to retail stores in a similar manner through the Company's single distributioncenter and is subsequently distributed to clients in a similar manner.

The Company operates its women's fashion specialty retail stores in 32 states as of May 1, 2021, principally in the southeastern United States. The Company offers its own credit card to its customers and all credit authorizations, payment processing and collection efforts are performed by a separate subsidiary of the Company.

### NOTE 5 – REPORTABLE SEGMENT INFORMATION (CONTINUED):

The following schedule summarizes certain segment information(in thousands):

Three Months Ended May 1, 2021	Retail	Credit	Total
Revenues	\$212,547	\$538	\$213,085
Depreciation	3,042	-	3,042
Interest and other income	(663)	-	(663)
Income (loss) before taxes	23,540	254	23,794
Capital expenditures	554	-	554
Three Months Ended			
May 2, 2020	Retail	Credit	Total
Revenues	\$99,890	\$842	\$100,732
Depreciation	4,006	-	4,006
Interest and other income	(1,851)	-	(1,851)
Income (loss) before taxes	(37,923)	392	(37,531)
Capital expenditures	5,311	-	5,311
	Retail	Credit	Total
Total assets as of May 1, 2021	\$575,335	\$42,585	\$617,920
Total assets as of January 30, 2021	549,349	42,103	591,452

The Company evaluates segment performance based on income before taxes. The Company does not allocate certain corporate expenses or income taxes to the credit segment.

The following schedule summarizes the direct expenses of the credit segment which are reflected in Selling, general and administrative expenses (in thousands):

		Three Mo	nths	Ended
	M	ay 1, 2021		May 2, 2020
Payroll	\$	117	\$	152
Postage		78		111
Other expenses		89		187
Total expenses	\$	284	\$	450

#### NOTE 6 – STOCK BASED COMPENSATION:

As of May 1, 2021, the Company had two long-term compensation plans pursuant to which stock-based compensation was outstanding or could be granted. The 2018 Incentive Compensation Plan and 2013 Incentive Compensation Plan are for the granting of various forms of equity-based awards, including restricted stock and stock options for grant, to officers, directors and key employees. Effective May 24, 2018, shares for grant were no longer available under the 2013 Incentive Compensation Plan.

The following table presents the number of options and shares of restricted stock initially authorized and available for grant under each of the plansas of May 1, 2021:

Options and/or restricted stock initially authorized Options and/or restricted stock available for grant: May 1, 2021

an Total	
dii 10tdi	
6,225,000	
	6,225,000

- 3,564,915 3,564,915

In accordance with ASC 718, the fair value of current restricted stock awards is estimated on the date of grant based on the market price of the Company's stock and is amortized to compensation expense on a straight-line basis over the related vesting periods. As of May 1, 2021 and January 30, 2021, there was \$14,763,000 and \$10,550,000, respectively, of total unrecognized compensation expense related to

\$14,763,000 and \$10,550,000, respectively, of total unrecognized compensation expense related to nonvested restricted stock awards, which had a remaining weighted-average vesting period of 3.0 years and 2.1 years, respectively. The total compensation expense during the three months ended May 1, 2021 was \$283,000 compared to \$606,000 for the three months ended May 2, 2020. These expenses are classified as a component of Selling, general and administrative expenses in the Condensed Consolidated Statements of Income (Loss).

The following summary shows the changes in the shares of unvested restricted stock outstanding during the three months ended May 1,2021:

		Weighted
		Average
	Number of	Grant Date Fair
	Shares	Value Per Share
Restricted stock awards at January 30, 2021	1,023,956 \$	15.33
Granted	406,994	13.48
Vested	(175,673)	22.21
Forfeited or expired	(10,436)	13.67
Restricted stock awards at May 1, 2021	1,244,841 \$	13.77

The Company's Employee Stock Purchase Plan allows eligible full-time employees to purchase a limited number of shares of the Company's Class A Common Stock during each semi-annual offering period at a 15% discount through payroll deductions. During the three months ended May 1, 2021 and May 2, 2020, the Company sold 19,248 and 26,957 shares to employees at an average discount of \$1.17 and \$1.64 per share, respectively, under the Employee Stock Purchase Plan. The compensation expense recognized for the 15% discount given under the Employee Stock Purchase Plan was approximately \$23,000 and \$44,000 for the three months ended May 1, 2021 and May 2, 2020, respectively. These expenses are classified as a component of Selling, general and administrative expenses in the Condensed Consolidated Statements of Income (Loss).

#### NOTE 7 – FAIR VALUE MEASUREMENTS:

The Company's investment portfolio was primarily invested in corporate bonds and tax-exempt and taxable governmental debt securitiesheld in managedaccounts with underlyingratings of A or better at May 1, 2021 and January 30, 2021. The state, municipal and corporate bonds have contractual maturities which range from four days to 4.5 years. The U.S. Treasury Notes have contractual maturities which range from 14 days to 2.5 years. These securities are classified as available-for-sale and are recorded as Short-term investments, Restricted cash, Restricted short-term investments and Other assets on the accompanying Condensed Consolidated Balance Sheets. These assets are carried at fair value with unrealized gains and losses reported net of taxes in Accumulated other comprehensive income. The asset-backed securities are bonds comprised of auto loans and bank credit cards that carry AAA ratings. The auto loan asset-backed securities are backed by static pools of auto loans that were originated and serviced by captive auto finance units, banks or finance companies. The bank credit card asset-backed securities are backed by revolving pools of credit card receivables generated by account holders of cards from American Express, Citibank, JPMorgan Chase, Capital One, and Discover.

Additionally, at May 1, 2021, the Company had \$0.8 million of corporate equities and deferred compensation plan assets of \$11.6 million. At January 30, 2021, the Company had \$0.7 million of corporate equities and deferred compensation plan assets of \$11.3 million. All of these assets are recorded within Other assets in the Condensed Consolidated Balance Sheets.

Level 1 category securities are measured at fair value using quoted active market prices. Level 2 investment securities include corporate and municipal bonds for which quoted prices may not be available on active exchanges for identical instruments. Their fair value is principally based on market values determined by management with assistance of a third-party pricing service. Since quoted prices in active markets for identical assets are not available, these prices are determined by the pricing service using observable market information such as quotes from less active markets and/or quoted prices of securities with similar characteristics, among other factors.

Deferred compensation plan assets consist of life insurance policies. These life insurance policies are valued based on the cash surrender value of the insurance contract, which is determined based on such factors as the fair value of the underlying assets and discounted cash flow and are therefore classified within Level 3 of the valuation hierarchy. The Level 3 liability associated with the life insurance policies represents a deferred

compensation obligation, the value of which is tracked via underlying insurance funds' net asset values, as recorded in Other noncurrent liabilities in the Condensed Consolidated Balance Sheet. These funds are designed to mirror mutual funds and money market funds that are observableand actively traded.

The following tables summarize the change in fair value of the Company's financial assets and liabilities measured using Level 3 inputs as of May 1, 2021 and January 30, 2021 (dollars in thousands):

The presentation in the table above has been revised to reflect current year presentation.

#### **NOTE 8 – RECENT ACCOUNTING PRONOUNCEMENTS:**

In March 2020, the FASB issued ASU 2020-04, *Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting*. In January 2021, the FASB clarified the scope of that guidance with the issuance of ASU 2021-01, "Reference Rate Reform: Scope." The new accounting rules provide optional expedients and exceptions for applying GAAP to contracts and other transactions affected by reference rate reform. The amendments in this standard can be adopted any time before the fourth quarter of 2022. The Company is currently in the process of evaluating the impact of adoption of the new rules on the Company's financial condition, results of operations, cash flows and disclosures.

#### **NOTE 9 – INCOME TAXES:**

The Company had an effective tax rate for the first quarter of 2021 of 12.9% (Expense) compared to an effective tax rate of 24.3% (Benefit) for the first quarter of 2020. The decrease in the 2021 first quarter tax rate was primarily due to higher pre-tax earnings and ability to realize foreign tax credits, offset by increases in state income taxes and an upward adjustment in the reserves for uncertain tax positions specific to state income taxes in the first quarter of 2020. Further, the Coronavirus Aid, Relief and Economic Security Act ("CARES") allows the Company to carryback losses five years; therefore, the Company has recorded \$33.0 million of estimated refunds calculated through the first quarter of 2021 in Accounts receivable in the Condensed Consolidated Balance Sheets.

#### **NOTE 10 – COMMITMENTS AND CONTINGENCIES:**

The Company is, from time to time, involved in routine litigation incidental to the conduct of its business, including litigation regarding the merchandise that it sells, litigation regarding intellectual property, litigation instituted by persons injured upon premises under its control, litigation with respect to various employment matters, including alleged discrimination and wage and hour litigation, and litigation with present or former employees.

Although such litigation is routine and incidental to the conduct of the Company's business, as with any business of its size with a significant number of employees and significant merchandise sales, such litigation could result in large monetary awards. Based on information currently available, management does not believe that any reasonably possible losses arising from current pending litigation will have a material adverse effect on its condensed consolidated financial statements. However, given the inherent uncertainties involved in such matters, an adverse outcome in one or more such matters could materially and adversely affect the Company's financial condition, results of operations and cash flows in any particular reporting period. The Company accrues for these matters when the liability is deemed probable and reasonably estimable.

#### NOTE 11 – REVENUE RECOGNITION:

The Company recognizes sales at the point of purchase when the customer takes possession of the merchandise and pays for the purchase, generally with cash or credit. Sales from purchases made with Cato credit, gift cards and layaway sales from stores are also recorded when the customer takes possession of the merchandise. E-commerce sales are recorded when the risk of loss is transferred to the customer. Gift cards are recorded as deferred revenue until they are redeemed or forfeited. Layaway sales are recorded as deferred revenue until the customer takes possession or forfeits the merchandise. Gift

cards do not have expiration dates. A provision is made for estimated merchandise returns based on sales volumes and the Company's experience; actual returns have not varied materially from historical amounts. A provision is made for estimated write-offs associated with sales made with the Company's proprietary credit card. Amounts related to shipping and handling billed to customers in a sales transaction are classified as Other revenue and the costs related to shipping product to customers (billed and accrued) are classified as Cost of goods sold.

The Company offers its own proprietary credit card to customers. All credit activity is performed by the Company's wholly-owned subsidiaries. None of the credit card receivables are secured. The Company estimated customer credit losses of \$131,000 and \$69,000 for the periods ended May 1, 2021 and May 2, 2020, respectively, on sales purchased by the Company's proprietary credit card of \$4.4 million and \$2.6 million for the periods ended May 1, 2021 and May 2, 2020, respectively.

The following table provides information about receivables and contract liabilities from contracts with customers (in thousands):

	Balance as of				
		May 1, 2021	_	January 30, 2021	
Proprietary Credit Card Receivables, net Gift Card Liability	\$ \$	9,094 6,832	\$ \$	9,606 8,155	

#### **NOTE 12 – LEASES:**

The Company determines whether an arrangement is a lease at inception. The Company has operating leases for stores, offices and equipment. Its leases have remaining lease terms of one year to 10 years, some of which include options to extend the lease term for up to five years, and some of which include options to terminate the lease within one year. The Company considers these options in determining the lease term used to establish its right-of-use assets and lease liabilities. The Company's lease agreements do not contain any material residual value guarantees or material restrictive covenants.

As most of the Company's leases do not provide an implicit rate, it uses its estimated incremental borrowing rate based on the information available at commencement date of the lease in determining the present value of lease payments.

The components of lease cost are shown below (in thousands):

	Three Months Ended			
		May 1, 2021	May 2, 2020	
Operating lease cost (a)	\$	16,726 \$	16,993	
Variable lease cost (b)	\$	793 \$	80	

<sup>(</sup>a) Includes right-of-use asset amortization of (\$1.2) million and (\$1.7) million for the three months ended May 1, 2021 and May 2, 2020, respectively.

<sup>(</sup>b) Primarily related to monthly percentage rent for stores not presented on the balance sheet.

Supplemental cash flow information and non-cash activity related to the Company's operating leases are as follows (in thousands):

#### Operating cash flow information:

	Three Months Ended			
	May 1, 2021		May 2, 2020	
Cash paid for amounts included in the measurement of lease liabilities	\$	15,947 \$	15,499	
Non-cash activity: Right-of-use assets obtained in exchange for lease obligations	\$	734 \$	28,197	

Weighted-average remaining lease term and discount rate for the Company's operating leases are as follows:

	As of		
	May 1, 2021	May 2, 2020	
Weighted-average remaining lease term	2.7 years	3.2 years	
Weighted-average discount rate	3.73%	4.36%	

As of May 1, 2021, the maturities of lease liabilities by fiscal year for the Company's operating leases are as follows (in thousands):

#### Fiscal Year

2021 (a)	\$	51,803
* /	Ψ	
2022		48,971
2023		36,102
2024		22,731
2025		13,915
Thereafter		36,870
Total lease payments		210,392
Less: Imputed interest		18,854
Present value of lease liabilities	\$	191,538

<sup>(</sup>a) Excluding the 3 months ended May 1, 2021.

#### FORWARD-LOOKING INFORMATION:

The following information should be read along with the unaudited Condensed Consolidated Financial Statements, including the accompanying Notes appearing in this report. Any of the following are "forward-looking" statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended: (1) statements in this Form 10-Q that reflect projections or expectations of our future financial or economic performance; (2) statements that are not historical information; (3) statements of our be liefs, intentions, plans and objectives for future operations, including those contained in "Management's Discussion and Analysis of Financial Condition and Results of Operations"; (4) statements relating to our operations or activities for our fiscal year ending January 29, 2022 ("fiscal 2021") and beyond, including, but not limited to, statements regarding expected amounts of capital expenditures and store openings, relocations, remodels and closures and statements regarding the potential impact of the COVID-19 pandemic and related responses and mitigation efforts on our business, results of operations and financial condition; and (5) statements relating to our future contingencies. When possible, we have attempted to identify forwardlooking statements by using words such as "will," "expects," "anticipates," "approximates," "believes," "estimates," "hopes," "intends," "may," "plans," "could," "would," "should" and any variations or negative formations of such words and similar expressions. We can give no assurance that actual results or events will not differ materially from those expressed or implied in any such forward-looking statements. Forward-looking statements included in this report are based on information available to us as of the filing date of this report, but subject to known and unknown risks, uncertainties and other factors that could cause actual results to differ materially from those contemplated by the forward -looking statements. Such factors include, but are not limited to, the following: any actual or perceived deterioration in the conditions that drive consumer confidence and spending, including, but not limited to, prevailing social, economic, political and public health conditions and uncertainties, levels of unemployment, fuel, energy and food costs, wage rates, tax rates, interest rates, home values, consumer net worth and the availability of credit; changes in laws or regulations affecting our business, including but not limited to tariffs; uncertainties regarding the impact of any governmental action regarding, or responses to, the foregoing conditions; competitive factors and pricing pressures; our ability to predict and respond to rapidly changing fashion trends and consumer demands; our ability to successfully implement our new store development strategy to increase new store openings and our ability of any such new stores to grow and perform as expected; adverse weather, public health threats (including the COVID-19 pandemic) or similar conditions that may affect our sales or operations; inventory risks due to shifts in market demand, including the ability to liquidate excess inventory at anticipated margins; and other factors discussed under "Risk Factors" in Part I, Item 1A of our annual report on Form 10-K for the fiscal year ended January 30, 2021 ("fiscal 2020"), as amended or supplemented, and in other reports we file with or furnish to the Securities and Exchange Commission ("SEC") from time to time. We do not undertake, and expressly decline, any obligation to update any such forward-looking information contained in this report, whether as a result of new information, future events, or otherwise.

#### **CRITICAL ACCOUNTING POLICIES AND ESTIMATES:**

The Company's accounting policies are more fully described in "Management's Discussion and Analysis of Financial Condition and Results of Operations" in the Company's Annual Report on Form 10-K for the fiscal year ended January 30, 2021. As disclosed in "Management's Discussion and Analysis of Financial Condition and Results of Operations," the preparation of the Company's financial statements in conformity with generally accepted accounting principles in the United States ("GAAP") requires management to make estimates and assumptions about future events that affect the amounts reported in the financial statements and accompanying notes. Future events and their effects cannot be determined with absolute certainty. Therefore, the determination of estimates requires the exercise of judgment. Actual results inevitably will differ from those estimates, and such differences may be material to the financial statements. The most significant accounting estimates inherent in the preparation of the Company's financial statements include the allowance for customer credit losses, inventory shrinkage, the calculation of potential asset impairment, workers' compensation, general and auto insurance liabilities, reserves relating to self-insured health insurance, and uncertaintax positions.

 $The \ Company's \ critical \ accounting policies \ and \ estimates are \ discussed with \ the \ Audit \ Committee.$ 

### **RESULTS OF OPERATIONS:**

The following table sets forth, for the periods indicated, certain items in the Company's unaudited Condensed Consolidated Statements of Income as a percentage of total retail sales:

_	Three Months Ended		
_	May 1, 2021	May 2, 2020	
Total retail sales	100.0 %	100.0 %	
Other revenue	0.9	1.9	
Total revenues	100.9	101.9	
Cost of goods sold (exclusive of depreciation)	58.5	84.6	
Selling, general and administrative (exclusive of depreciation)	29.9	53.1	
Depreciation	1.4	4.1	
Interest and other income	(0.3)	(1.9)	
Income (loss) before income taxes	11.3	(38.0)	
Net income (loss)	9.8	(28.8)	

#### **RESULTS OF OPERATIONS (CONTINUED):**

#### **COVID-19 Update**

The COVID-19 pandemic adversely impacted the Company's business, financial condition and operating results through fiscal 2020. The first quarter of 2021 saw significant improvements in sales compared to 2020. This improvement was primarily attributable to government stimulus, increased customer traffic, states continuing to lift capacity limits as more people are vaccinated, consumers' increasing comfort level with venturing out to social events and customers' preparing to return to work. However, the Company's sales were well below 2019 sales for the comparable period, and there is still a high level of uncertainty regarding the lingering effects of the COVID-19 pandemic and the continued impact on the Company's customers' buying habits. The Company faces additional uncertainty from the continued effects of disruption in the global supply chain and available workers as it attempts to hire associates as its operating hours continue to expand. The Company expects that these uncertainties and perhaps others related to the pandemic will continue to impact the Company in fiscal 2021 and possibly beyond. The adverse financial impacts associated with the continued effects of, and uncertainties related to, the COVID-19 pandemic include, but are not limited to, (i) lower net sales in markets affected by the actual or potential outbreak, whether due to state and local orders, reductions in store traffic and customer demand, labor shortages, or all of these factors, (ii) lower net sales caused by the delay of inventory production and fulfillment, (iii) and incremental costs associated with efforts to mitigate the effects of the outbreak, including increased freight and logistics costs and other expenses.

The extent to which the COVID-19 pandemic ultimately impacts the Company's business, financial condition, results of operations, cash flows, and liquidity may differ from management's current estimates due to inherent uncertainties regarding the duration and further spread of the outbreak or its variants, its severity, actions taken to contain the virus or treat its impact, and how quickly and to what extent normal economic and operating conditions can resume.

While the Company currently anticipates a continuation of the adverse impacts of COVID-19 during 2021 and possibly beyond, the duration and severity of these effects will depend on the course of future developments, which are highly uncertain, including the relative speed and success of, as well as public confidence in, mitigation measures such as the current effort to vaccinate substantial portions of the U.S. and global population, emerging information regarding variants of the virus or new viruses and their potential impact on current mitigation efforts, public attitudes toward continued compliance with containment and mitigation measures, and possible new information and understanding that could alter the course and duration of current measures to combat the spread of the virus.

#### Comparison of First Quarter of 2021 with 2020

Total retail sales for the first quarter were \$211.2 million compared to last year's first quarter sales of \$98.8 million. Sales increased primarily due to an increase in same-store sales and sales from new stores, partially offset by permanently closed stores in 2020. The 111.0% increase in same-store sales is primarily due to stores being closed from March 19, 2020 through the end of the first quarter of 2020. Same store sales include stores that have been open more than 15 months. Stores that have been relocated or expanded are also included in the same store sales calculation after they have been open more than 15 months. The method of calculating same store sales varies across the retail industry. As a result, our same store sales calculation may not be comparable to similarly titled measures reported by other companies. E-commerce sales were less than 5.0% of sales for the first quarter of fiscal 2021 and are included in the same-store sales calculation. Total revenues, comprised of retail sales and other revenue (principally finance charges and late fees on

customer accounts receivable, shipping charged to customers for e-commerce purchases and layaway fees), were \$213.1 million for the first quarter ended May 1, 2021, compared to \$100.7 million for the first quarter ended May 2, 2020. The Company operated 1,325 stores at May 1, 2021 compared to 1,300 stores at the end of last fiscal year's first quarter. For the first three months of fiscal 2021, the Company permanently closed five stores. The Company currently expects to close approximately 25 stores in fiscal 2021.

Credit revenue of \$0.5 million represented 0.3% of total revenues in the first quarter of fiscal 2021, compared to 2020 credit revenue of \$0.8 million or 0.8% of total revenues. Credit revenue is comprised of interest earned on the Company's private label credit card portfolio and related fee income. Credit revenue decreased slightly for the most recent comparable period due to lower finance charge income and lower late fee income from sales using the Company's proprietary credit card. Related expenses include principally payroll, postage and other administrative expenses, and totaled \$0.3 million in the first quarter of 2021, compared to last year's first quarter expenses of \$0.5 million.

Other revenue, a component of total revenues, was \$1.9 million for the first quarter of fiscal 2021, compared to \$1.9 million for the prior year's comparable first quarter.

Cost of goods sold was \$123.7 million, or 58.5% of retail sales for the first quarter of fiscal 2021, compared to \$83.6 million, or 84.6% of retail sales in the first quarter of fiscal 2020. The overall decrease in cost of goods sold as a percent of retail sales for first quarter of 2021 resulted primarily from the leveraging of occupancy, buying and distribution costs due to normalized sales and higher sales of regular priced goods. Cost of goods sold includes merchandise costs (net of discounts and allowances), buying costs, distribution costs, occupancy costs, freight and inventory shrinkage. Net merchandise costs and in -bound freight are capitalized as inventory costs. Buying and distribution costs include payroll, payroll-related costs and operating expenses for the buying departments and distribution center. Occupancy costs include rent, real estate taxes, insurance, common area maintenance, utilities and maintenance for stores and distribution facilities. Total gross margin dollars (retail sales less cost of goods sold exclusive of depreciation) increased by 475.4% to \$87.6 million for the first quarter of fiscal 2021 compared to \$15.2 million in the first quarter of fiscal 2020. Gross marginas presented may not be comparable to those of other entities.

Selling, general and administrative expenses ("SG&A") primarily include corporate and store payroll, related payroll taxes and benefits, insurance, supplies, advertising, bank and credit card processing fees. SG&A expenses were 29.9% of retail sales for the first quarter of fiscal 2021, compared to 53.1% of retail sales in the first quarter of fiscal 2020. SG&A as a percent of retail sales decreased primarily due to leveraging expenses as a result of normalized sales and a decrease in impairment charges, partially offset by higher incentive compensation.

Depreciation expense was \$3.0 million, or 1.4% of retail sales for the first quarter of fiscal 2021, compared to \$4.0 million, or 4.1% of retail sales for the first quarter of fiscal 2020. The decrease in depreciation expense is attributable to lower net fixed assets primarily due to \$13.7 million of impairment charges in 2020.

Interest and other income was \$0.7 million, or 0.3% of retail sales for the first quarter of fiscal 2021, compared to \$1.9 million, or 1.9% of retail sales for the first quarter of fiscal 2020. The decrease is primarily attributable to lower interest rates and smaller gains from the sale of investments, partially offset by an increase in short-terminvesting.

Income tax expense was \$3.1 million or 1.5% of retail sales for the first quarter of fiscal 2021, compared to an income tax benefit of \$9.1 million, or 9.2% of retail sales for the first quarter of fiscal 2020. Income

tax expense for the first quarter of fiscal 2021 increased primarily as a result of higher pre-tax earnings. The effective income tax rate for the first quarter of fiscal 2021 was 12.9% (Expense) compared to 24.3% (Benefit) for the first quarter of 2020. The decrease in the 2021 first quarter tax rate was primarily due to higher pre-tax earnings and the ability to realize foreign tax credits, partially offset by increases in state income taxes in the first quarter of 2020.

#### LIQUIDITY, CAPITAL RESOURCES AND MARKETRISK:

The Company believes that its cash, cash equivalents and short-term investments, together with cash flows from operations and borrowings available under its revolving credit agreement, will be adequate to fund the Company's regular operating requirements and expected capital expenditures for fiscal 2021 and the next 12 months.

Cash provided by operating activities for the first three months of fiscal 2021 was primarily generated by earnings adjusted for depreciation and changes in working capital. The increase in cash provided of \$115.8 million for the first three months of fiscal 2021 as compared to the first three months of fiscal 2020 was primarily due to net income versus a net loss, a decrease in inventory, and an increase in accounts payable and accruedliabilities, partially offset by a decrease in store impairment charges.

At May 1, 2021, the Company had working capital of \$130.5 million compared to \$108.6 million at January 30, 2021. This increase is primarily attributable to higher short-term investments, partially offset by higher accrued incentive compensation.

At May 1, 2021 and January 30, 2021, the Company had an unsecured revolving credit agreement, which provides for borrowings of up to \$35.0 million less the balance of letters of credit discussed below. The revolving credit agreement is committed through May 2023. The credit agreement contains various financial covenants and limitations, including the maintenance of specific financial ratios with which the Company was in compliance as of May 1, 2021. There were no borrowings outstanding under the credit facility as of May 1, 2021 or January 30, 2021.

At May 1, 2021 and January 30, 2021, the Company had no outstanding letters of credit relating to purchase commitments.

Expenditures for property and equipment totaled \$0.6 million in the first three months of fiscal 2021, compared to \$5.3 million in last year's first three months. For the full fiscal 2021 year, the Company expects to invest approximately \$3.1 million in capital expenditures.

Net cash used by investing activities totaled \$34.2 millionin the first three months of fiscal 2021 compared to \$76.9 million provided in the comparable period of fiscal 2020, primarily due to a decrease in the sale of short-term investments and an increase in the purchase of short-term investments, partially offset by a decrease in capital expenditures.

Net cash used by financing activities totaled \$5.5 million in the first three months of fiscal 2021 compared to \$12.4 million provided in the comparable period of fiscal 2020, primarily due to a decrease in proceeds from the line of credit, partially offset by no dividends paid in the first quarter of fiscal 2021 and fewer stock repurchases.

On May 20,2021, the Board of Directors declared the quarterly dividend at \$0.11 per share.

As of May 1, 2021, the Company had 1,445,488 shares remaining in open authorizations under its share repurchase program.

The Company does not use derivative financial instruments.

The Company's investment portfolio was primarily invested in corporate bonds and tax-exempt and taxable governmental debt securitiesheld in managed accounts with underlying ratings of A or better at May 1, 2021 and January 30, 2021. The state, municipal and corporate bonds have contractual maturities which range from four days to 4.5 years. The U.S. Treasury Notes have contractual maturities which range from 14 days to 2.5 years. These securities are classified as available-for-sale and are recorded as Short-term investments, Restricted cash, Restricted short-term investments and Other assets on the accompanying Condensed Consolidated Balance Sheets. These assets are carried at fair value with unrealized gains and losses reported net of taxes in Accumulated other comprehensive income. The asset-backed securities are bonds comprised of auto loans and bank credit cards that carry AAA ratings. The auto loan asset-backed securities are backed by static pools of auto loans that were originated and serviced by captive auto finance units, banks or finance companies. The bank credit card asset-backed securities are backed by revolving pools of credit card receivables generated by account holders of cards from American Express, Citibank, JPMorgan Chase, Capital One, and Discover.

Additionally, at May 1, 2021, the Company had \$0.8 million of corporate equities and deferred compensation plan assets of \$11.6 million. At January 30, 2021, the Company had \$0.7 million of corporate equities and deferred compensation plan assets of \$11.3 million. All of these assets are recorded within Other assets in the Condensed Consolidated Balance Sheets. See Note 7, Fair Value Measurements.

#### RECENT ACCOUNTING PRONOUNCEMENTS:

See Note 8, Recent Accounting Pronouncements.

# THE CATO CORPORATION QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

#### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK:

The Company is subject to market rate risk from exposure to changes in interest rates based on its financing, investing and cash management activities, but the Company does not believe such exposure is material.

#### ITEM 4. CONTROLS AND PROCEDURES:

We carried out an evaluation, with the participation of our PrincipalExecutive Officer and PrincipalFinancial Officer, of the effectiveness of our disclosure controls and procedures as of May 1, 2021. Based on this evaluation, our PrincipalExecutive Officer and Principal Financial Officer concluded that, as of May 1, 2021, our disclosure controls and procedures, as defined in Rule 13a-15(e), under the Securities Exchange Act of 1934 (the "Exchange Act"), were effective to ensure that information we are required to disclose in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to our management, including our Principal Executive Officer and Principal Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

#### CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING:

No change in the Company's internal control over financial reporting (as defined in Exchange Act Rule 13a-15(f)) has occurred during the Company's fiscal quarter ended May 1, 2021 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

#### PART II OTHER INFORMATION

#### **ITEM 1. LEGAL PROCEEDINGS:**

Not Applicable

## ITEM 1A. RISK FACTORS:

In addition to the otherinformation in this report, you should carefully consider the factors discussed in Part I, "Item 1A. Risk Factors" in our Annual Report on Form 10-K for our fiscal year ended January 30, 2021. These risks could materially affect our business, financial condition or future results; however, they are not the only risks we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial may also materially adversely affect our business, financial condition or results of operations.
