#### **NOTE 1 - GENERAL:**

The condensed consolidated financial statements have been prepared from the accounting records of The Cato Corporation and its wholly-owned subsidiaries (the "Company"), and all amounts shown as of and for the periods ended October 31, 2020 and November 2, 2019 are unaudited. In the opinion of management, all adjustments considered necessary for a fair presentation of the financial statements have been included. All such adjustments are of a normal, recurring nature unless otherwise noted. The results of the interim period may not be indicative of the results expected for the entire year.

The interim financial statements should be read in conjunction with the consolidated financial statements and notes thereto, included in the Company's Annual Report on Form 10-K for the fiscal year ended February 1, 2020. Amounts as of February 1, 2020 have been derived from the audited balance sheet, but do not include all disclosures required by accounting principles generally accepted in the United States of America.

On August 27, 2020, the Board of Directors authorized an increase in the Company's share repurchase program of 1 million shares.

Subsequent to October 31, 2020, the Company repurchased 320,707 shares for \$2,274,610.

Additionally, on November 19, 2020, the Board of Directors authorized an increase in the Company's share repurchase program of 1.5 million shares.

#### **COVID-19 Update**

The COVID-19 pandemic has created, and may continue to create, challenges and uncertainties for our business. In the first quarter of fiscal 2020, the pandemic resulted in state and local orders mandating store closures and other measures to mitigate the spread of the virus. Recently reported increases in infection rates in many areas and the onset of cooler weather raise the possibility of increased or renewed governmental measures or public health guidance to reduce public activity and gatherings in order to mitigate the spread of the virus, as well as continued adverse effect on consumer confidence. Responses by customers, government and the private sector have and will likely continue to adversely impact our business operations for the remainder of fiscal 2020 and possibly beyond. The extent to which the COVID-19 pandemic ultimately impacts the Company's business, financial condition, results of operations, cash flows, and liquidity may differ from management's current estimates due to inherent uncertainties regarding the duration and further spread of the outbreak, its severity, actions taken to contain the virus or treat its impact, and how quickly and to what extent normal economic and operating conditions can resume.

Beginning March 19, 2020, the Company temporarily closed all Cato, It's Fashion, It's Fashion Metro and Versona stores. In addition, the Company suspended its quarterly dividend, significantly reduced capital expenditures and reduced its SG&A expense through the reduction of non-payroll expenses, as well as furloughed associates and in certain instances eliminated positions primarily at its corporate office. Beginning on May 1, 2020, the Company began to re-open stores based on the pertinent state and local orders. As of June 15, 2020, all stores have re-opened. Although all stores have re-opened, stores are operating at reduced hours and stores may be temporarily closed or subject to further operating restrictions in compliance with local regulations or in response to public health guidance due to COIVD-19. There is significant uncertainty around the duration, breadth and severity of continued business disruptions related to

COVID-19, as well as its impact on the U.S. economy, consumer willingness to visit malls and shopping centers, and associate staffing for our stores. At this time, the possible effects of national, state or local action, legislation, guidelines or programs that attempt to mitigate the spread of COVID-19 or address its economic effects on our customers, suppliers or the Company are also uncertain.

While the Company currently anticipates that our results for the remainder of fiscal 2020 will be adversely impacted, the extent to which COVID-19 impacts the Company's results will depend on future developments, which are highly uncertain, including possible new information and understanding about the severity of COVID-19, related potential economic impacts to customers and suppliers, and the effect of actions taken to contain it or mitigate its impact.

#### **Accounting Policies - Impairment of Long-Lived Assets:**

The Company invests in leaseholds, right-of use assets and equipment primarily in connection with the opening and remodeling of stores and in computer software and hardware. The Company periodically reviews its store locations and estimates the recoverability of its long-lived assets, which primarily relate to Fixtures and equipment, Leasehold improvements, Right-of-use assets net of Lease liabilities and Information technology equipment and software. An impairment charge is recorded for the amount by which the carrying value exceeds the estimated fair value when the Company determines that projected cash flows associated with those long-lived assets will not be sufficient to recover the carrying value. This determination is based on a number of factors, including the store's historical operating results and projected cash flows, which include future sales growth rates, margin rates and expense projections. The Company assesses the fair value of each lease by considering market rents and any lease terms that may adjust market rents under certain conditions, such as the loss of an anchor tenant or a leased space in a shopping center not meeting certain criteria. Further, in determining when to close a store, the Company considers real estate development in the area and perceived local market conditions, which can be difficult to predict and may be subject to change. As a result of store closures during the first quarter of 2020, the Company determined a triggering event occurred, which resulted in an impairment analysis being performed. An asset impairment charge of \$5.3 million was recorded in the first quarter of 2020, and no additional impairment was required in the second and third quarters of 2020. During the third quarter of 2020, the Company determined no new stores would be opened during the remainder of 2020, as well as 2021. As a result, during the third quarter of 2020, the Company impaired \$2.3 million worth of fixtures planned for new stores.

#### **Recently Adopted Accounting Policies**

In June 2016, the Financial Accounting Standards Board ("FASB") issued ASU 2016-13, *Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*, which requires companies to measure and recognize expected credit losses for financial assets held at amortized costs based on expected losses rather than incurred losses. The new accounting rules were effective for the Company in the first quarter of 2020 and had a minimal impact on the financial statements.

#### **NOTE 2 - EARNINGS PER SHARE:**

Accounting Standard Codification ("ASC") 260 – *Earnings Per Share* requires dual presentation of basic and diluted Earnings Per Share ("EPS") on the face of all income statements for all entities with complex capital structures. The Company has presented one basic EPS and one diluted EPS amount for all common shares in the accompanying Condensed Consolidated Statements of Income and Comprehensive Income. While the Company's certificate of incorporation provides the right for the Board of Directors to declare dividends on Class A shares without declaration of commensurate dividends on Class B shares, the Company has historically paid the same dividends to both Class A and Class B shareholders and the Board of Directors has resolved to continue this practice. Accordingly, the Company's allocation of income for purposes of the EPS computation is the same for Class A and Class B shares and the EPS amounts reported herein are applicable to both Class A and Class B shares.

Basic EPS is computed as net income less earnings allocated to non-vested equity awards divided by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur from common shares issuable through stock options and the Employee Stock Purchase Plan.

#### NOTE 3 – ACCUMULATED OTHER COMPREHENSIVE INCOME:

The following table sets forth information regarding the reclassification out of Accumulated other comprehensive income (in thousands) for the three months ended October 31, 2020:

	Changes in Accumulated Other Comprehensive Income (a) Unrealized Gains and (Losses) on Available-for-Sale Securities				
Beginning Balance at August 1, 2020	\$	1,609			
Other comprehensive income before					
reclassification		(350)			
Amounts reclassified from accumulated					
other comprehensive income (b)		68			
Net current-period other comprehensive income		(282)			
Ending Balance at October 31, 2020	\$	1,327			

<sup>(</sup>a) All amounts are net-of-tax. Amounts in parentheses indicate a debit/reduction to other comprehensive income.

The following table sets forth information regarding the reclassification out of Accumulated other comprehensive income (in thousands) for the nine months ended October 31, 2020:

	Changes in Accumulated Other Comprehensive Income (a) Unrealized Gains and (Losses) on Available-for-Sale Securities				
Beginning Balance at February 1, 2020	\$	1,423			
Other comprehensive income before reclassification		(732)			
Amounts reclassified from accumulated					
other comprehensive income (b)		636			
Net current-period other comprehensive income		(96)			
Ending Balance at October 31, 2020	\$	1,327			

<sup>(</sup>a) All amounts are net-of-tax. Amounts in parentheses indicate a debit/reduction to other comprehensive income.

<sup>(</sup>b) Includes \$89 impact of accumulated other comprehensive income reclassifications into Interest and other income for net gains on available-forsale securities. The tax impact of this reclassification was \$21.

<sup>(</sup>b) Includes \$827 impact of accumulated other comprehensive income reclassifications into Interest and other income for net gains on available-forsale securities. The tax impact of this reclassification was \$191.

#### NOTE 3 – ACCUMULATED OTHER COMPREHENSIVE INCOME (CONTINUED):

The following table sets forth information regarding the reclassification out of Accumulated other comprehensive income (in thousands) for the three months ended November 2, 2019:

	Comprehe Unre and Avail	Accumulated Other ensive Income (a) ealized Gains (Losses) on lable-for-Sale Securities
Beginning Balance at August 3, 2019 Other comprehensive income before reclassifications	\$	1,194 (165)
Amounts reclassified from accumulated other comprehensive income (b)		140
Net current-period other comprehensive income		(25)
Ending Balance at November 2, 2019	\$	1,169

- (a) All amounts are net-of-tax. Amounts in parentheses indicate a debit/reduction to other comprehensive income.
- (b) Includes \$183 impact of Accumulated other comprehensive income reclassifications into Interest and other income for net gains on available-for-sale securities. The tax impact of this reclassification was \$43.

The following table sets forth information regarding the reclassification out of Accumulated other comprehensive income (in thousands) for the nine months ended November 2, 2019:

	Changes in Accumulated Other Comprehensive Income (a) Unrealized Gains and (Losses) on Available-for-Sale Securities				
Beginning Balance at February 2, 2019	\$	(77)			
Other comprehensive income before reclassifications		1,067			
Amounts reclassified from accumulated					
other comprehensive income (b)		179			
Net current-period other comprehensive income		1,246			
Ending Balance at November 2, 2019	\$	1,169			

- (a) All amounts are net-of-tax. Amounts in parentheses indicate a debit/reduction to other comprehensive income.
- (b) Includes \$234 impact of Accumulated other comprehensive income reclassifications into Interest and other income for net gains on available-for-sale securities. The tax impact of this reclassification was \$55.

#### **NOTE 4 – FINANCING ARRANGEMENTS:**

As of October 31, 2020, the Company had an unsecured revolving credit agreement to borrow \$35.0 million less the balance of any revocable letters of credit as discussed below. On June 2, 2020, the Company signed an amendment extending the revolving credit agreement through May 2023. The credit agreement contains various financial covenants and limitations, including the maintenance of specific financial ratios with which the Company was in compliance as of October 31, 2020. There were no borrowings outstanding under this credit facility as of October 31, 2020 or February 1, 2020. The weighted average interest rate under the credit facility was zero at October 31, 2020 due to no borrowings outstanding.

At October 31, 2020 and February 1, 2020, the Company had no outstanding revocable letters of credit relating to purchase commitments.

#### NOTE 5 - REPORTABLE SEGMENT INFORMATION:

The Company has determined that it has four operating segments, as defined under ASC 280-10, including Cato, It's Fashion, Versona and Credit. As outlined in ASC 280-10, the Company has two reportable segments: Retail and Credit. The Company has aggregated its three retail operating segments, including e-commerce, based on the aggregation criteria outlined in ASC 280-10, which states that two or more operating segments may be aggregated into a single reportable segment if aggregation is consistent with the objective and basic principles of ASC 280-10, which require the segments to have similar economic characteristics, products, production processes, clients and methods of distribution.

The Company's retail operating segments have similar economic characteristics and similar operating, financial and competitive risks. They are similar in nature of product, as they all offer women's apparel, shoes and accessories. Merchandise inventory for the Company's retail operating segments is sourced from the same countries and some of the same vendors, using similar production processes. Merchandise for the Company's operating segments is distributed to retail stores in a similar manner through the Company's single distribution center and is subsequently distributed to clients in a similar manner.

The Company operates its women's fashion specialty retail stores in 33 states as of October 31, 2020, principally in the southeastern United States. The Company offers its own credit card to its customers and all credit authorizations, payment processing and collection efforts are performed by a separate subsidiary of the Company.

#### NOTE 5 – REPORTABLE SEGMENT INFORMATION (CONTINUED):

The following schedule summarizes certain segment information (in thousands):

Three Months Ended				Nine Months Ended			
October 31, 2020	Retail	Credit	Total	October 31, 2020	Retail	Credit	Total

Other expenses		134		146	438		518
Total expenses	\$	354	\$	420	\$ 1,133	\$	1,347
	<del></del>			14			

#### **NOTE 6 – STOCK-BASED COMPENSATION:**

As of October 31, 2020, the Company had two long-term compensation plans pursuant to which stock-based compensation was outstanding or could be granted. The 2018 Incentive Compensation Plan and 2013 Incentive Compensation Plan are for the granting of various forms of equity-based awards, including restricted stock and stock options for grant, to officers, directors and key employees. Effective May 24, 2018, shares for grant were no longer available under the 2013 Incentive Compensation Plan.

The following table presents the number of options and shares of restricted stock initially authorized and available for grant under each of the plans as of October 31, 2020:

	2013	2018	
	Plan	Plan	Total
Options and/or restricted stock initially authorized	1,500,000	4,725,000	6,225,000
Options and/or restricted stock available for grant:			
October 31, 2020	-	3,951,558	3,951,558

In accordance with ASC 718, the fair value of current restricted stock awards is estimated on the date of grant based on the market price of the Company's stock and is amortized to compensation expense on a straight-line basis over the related vesting periods. As of October 31, 2020 and February 1, 2020, there was \$11,778,000 and \$11,900,000, respectively, of total unrecognized compensation expense related to nonvested restricted stock awards, which had a remaining weighted-average vesting period of 2.4 years and 2.2 years, respectively. The total compensation expense during the three and nine months ended October 31, 2020 was \$1,082,000 and \$2,941,000, respectively, compared to \$1,211,000 and \$3,351,000, respectively, for the three and nine months ended November 2, 2019. These expenses are classified as a component of Selling, general and administrative expenses in the Condensed Consolidated Statements of Income and Comprehensive Income.

The following summary shows the changes in the shares of unvested restricted stock outstanding during the nine months ended October 31, 2020:

	Number of Shares	Weighted Average Grant Date Fair Value Per Share
Restricted stock awards at February 1, 2020	942,562	\$ 19.55
Granted	335,317	11.11
Vested	(129,682)	34.01
Forfeited or expired	(114,326)	16.55
Restricted stock awards at October 31, 2020	1,033,871	\$ 15.33
	15	

#### NOTE 6 - STOCK BASED-COMPENSATION (CONTINUED):

The Company's Employee Stock Purchase Plan allows eligible full-time employees to purchase a limited number of shares of the Company's Class A Common Stock during each semi-annual offering period at a 15% discount through payroll deductions. During the nine months ended October 31, 2020 and November 2, 2019, the Company sold 48,191 and 44,330 shares to employees at an average discount of \$1.43 and \$2.24 per share, respectively, under the Employee Stock Purchase Plan. The compensation expense recognized for the 15% discount given under the Employee Stock Purchase Plan was approximately \$69,000 and \$99,000 for the nine months ended October 31, 2020 and November 2, 2019, respectively. These expenses are classified as a component of Selling, general and administrative expenses.

#### **NOTE 7 – FAIR VALUE MEASUREMENTS:**

The following tables set forth information regarding the Company's financial assets and liabilities that are measured at fair value (in thousands) as of October 31, 2020 and February 1, 2020:

Description	Octo	ber 31, 2020	<u>M</u> ]	Quoted Prices in Active arkets for (dentical Assets Level 1	0	ignificant Other bservable Inputs Level 2		ignificant observable Inputs Level 3

Total Liabilities	\$	(10,391)	\$ -	\$ -	\$ (10,391)

The Company's investment portfolio was primarily invested in corporate bonds and tax-exempt and taxable governmental debt securities held in managed accounts with underlying ratings of A or better at October 31, 2020 and February 1, 2020. The state, municipal and corporate bonds have contractual maturities which range from two weeks to five years. The U.S. Treasury Notes and Certificates of Deposit have contractual maturities which range from two weeks to three years. These securities are classified as available-for-sale and are recorded as Short-term investments, Restricted cash and Restricted short-term investments on the accompanying Condensed Consolidated Balance Sheets. These assets are carried at fair value with unrealized gains and losses reported net of taxes in Accumulated other comprehensive income. The asset-backed securities are bonds comprised of auto loans and bank credit cards that carry AAA ratings. The auto loan asset-backed securities are backed by static pools of auto loans that were originated and serviced by captive auto finance units, banks or finance companies. The bank credit card asset-backed securities are backed by revolving pools of credit card receivables generated by account holders of cards from American Express, Citibank, JPMorgan Chase, Capital One and Discover.

Additionally, at October 31, 2020, the Company had \$1.5 million of corporate equities and deferred compensation plan assets of \$10.5 million. At February 1, 2020, the Company had \$0.7 million of corporate equities and deferred compensation plan assets of \$10.5 million. All of these assets are recorded within Other assets in the Condensed Consolidated Balance Sheets.

Level 1 category securities are measured at fair value using quoted active market prices. Level 2 investment securities include corporate bonds, municipal bonds and asset-backed securities for which quoted prices may not be available on active exchanges for identical instruments. Their fair value is principally based on market values determined by management with assistance of a third-party pricing service. Since quoted prices in active markets for identical assets are not available, these prices are determined by the pricing service using observable market information such as quotes from less active markets and/or quoted prices of securities with similar characteristics, among other factors.

Deferred compensation plan assets consist of life insurance policies. These life insurance policies are valued based on the cash surrender value of the insurance contract, which is determined based on such factors as the

fair value of the underlying assets and discounted cash flow and are therefore classified within Level 3 of the valuation hierarchy. The Level 3 liability associated with the life insurance policies represents a deferred compensation obligation, the value of which is tracked via underlying insurance funds' net asset values, as recorded in Other noncurrent liabilities in the Condensed Consolidated Balance Sheet. These funds are designed to mirror mutual funds and money market funds that are observable and actively traded.

The following tables summarize the change in fair value of the Company's financial assets and liabilities measured using Level 3 inputs as of October 31, 2020 and February 1, 2020 (in thousands):

	Fair Value Measurements Using Significant Unobservable Asset Inputs (Level 3)

#### **NOTE 8 – RECENT ACCOUNTING PRONOUNCEMENTS:**

In December 2019, the FASB issued ASU 2019-12, *Income Taxes (Topic 740): Simplifying the Accounting for Income Taxes.* The new accounting rules reduce complexity by removing specific exceptions to general principles related to intraperiod tax allocations, ownership changes in foreign investments, and interim period income tax accounting for year-to-date losses that exceed anticipated losses. The new accounting rules also simplify accounting for franchise taxes that are partially based on income, transactions with a government that result in a step up in the tax basis of goodwill, separate financial statements of legal entities that are not subject to tax, and enacted changes in tax laws in interim periods. The new accounting rules will be effective for the Company in the first quarter of 2021. The Company is currently in the process of evaluating the impact of adoption of the new accounting rules on the Company's financial position, results of operations, cash flows and disclosures.

#### NOTE 9 – INCOME TAXES:

The Company had an effective tax rate for the first nine months of 2020 of 36.7% (Benefit) compared to 14.3% (Expense) for the first nine months of 2019. The increase in the effective tax rate for the first nine months was primarily due to the federal net operating loss carryback provisions of the Coronavirus Aid, Relief and Economic Security Act (CARES Act) and release of reserves for uncertain tax positions due to expiration of statute of limitations, offset by valuation allowances against state income net operating losses, less income tax credits, and an upward adjustment in the reserves for uncertain tax positions specific to state income taxes recorded in the first quarter of 2020.

The Company assessed the likelihood that deferred tax assets related to state net operating loss carryforwards will be realized in light of the adverse impact on the Company's financial statements and operations due to COVID-19. Based on this assessment, the Company concluded that it is more likely than not that the Company will not be able to realize the state net operating losses and, accordingly, has recorded a valuation allowance against the existing deferred tax assets.

The annual effective tax rate for the current fiscal year is impacted by the ability to carryback federal net operating losses due to the CARES Act, partially offset by changes in management's judgment regarding the ability to realize deferred tax assets, primarily state income net operating losses generated in the current fiscal year. The Company has factored the realizability of these deferred tax assets generated as a result of projected current year losses into its estimated annual effective rate for the current year. To the extent that actual results and/or events differ from the predicted results, the Company may continue to see effects on the annual effective tax rate.

Further, the CARES Act allows the Company to carryback losses to 2015; therefore, the Company has recorded \$27.0 million of estimated refunds calculated through the third quarter of 2020 in Accounts receivable in the Condensed Consolidated Balance Sheets.

#### **NOTE 10 – COMMITMENTS AND CONTINGENCIES:**

The Company is, from time to time, involved in routine litigation incidental to the conduct of its business, including litigation regarding the merchandise that it sells, litigation regarding intellectual property, litigation instituted by persons injured upon premises under its control, litigation with respect to various

employment matters, including alleged discrimination and wage and hour litigation, and litigation with present or former employees.

Although such litigation is routine and incidental to the conduct of the Company's business, as with any business of its size with a significant number of employees and significant merchandise sales, such litigation could result in large monetary awards. Based on information currently available, management does not believe that any reasonably possible losses arising from current pending litigation will have a material adverse effect on the Company's condensed consolidated financial statements. However, given the inherent uncertainties involved in such matters, an adverse outcome in one or more such matters could materially and adversely affect the Company's financial condition, results of operations and cash flows in any particular reporting period. The Company accrues for these matters when the liability is deemed probable and reasonably estimable.

#### **NOTE 11 – REVENUE RECOGNITION:**

The Company recognizes sales at the point of purchase when the customer takes possession of the merchandise and pays for the purchase, generally with cash or credit. Sales from purchases made with Cato credit, gift cards and layaway sales from stores are also recorded when the customer takes possession of the merchandise. E-commerce sales are recorded when the risk of loss is transferred to the customer. Gift cards are recorded as deferred revenue until they are redeemed or forfeited. Layaway sales are recorded as deferred revenue until the customer takes possession or forfeits the merchandise. Gift cards do not have expiration dates. A provision is made for estimated merchandise returns based on sales volumes and the Company's experience; actual returns have not varied materially from historical amounts. A provision is made for estimated write-offs associated with sales made with the Company's proprietary credit card. Amounts related to shipping and handling billed to customers in a sales transaction are classified as Other revenue and the costs related to shipping product to customers (billed and accrued) are classified as Cost of goods sold.

The Company offers its own proprietary credit card to customers. All credit activity is performed by the Company's wholly-owned subsidiaries. None of the credit card receivables are secured. The Company estimated uncollectible amounts of \$,311000 and \$,670000 for the nine months ended October 31, 2020 and November 2, 2019, respectively, on sales purchased on the Company's proprietary credit card of \$11.1 million and \$20.3 million for the nine months ended October 31, 2020 and November 2, 2019, respectively.

The following table provides information about receivables and contract liabilities from contracts with customers (in thousands):

		Bal	ance as of	
	(	October 31, 2020	-	February 1, 2020
Proprietary Credit Card Receivables, net	\$	10,241	\$	15,241
Gift Card Liability	\$	6,021	\$	7,658
	21			

#### **NOTE 12 – LEASES:**

The Company determines whether an arrangement is a lease at inception. The Company has operating leases for stores, offices and equipment. Its leases have remaining lease terms of one year to 10 years, some of which include options to extend the lease term for up to five years, and some of which include options to terminate the lease within one year. The Company considers these options in determining the lease term used to establish its right-of-use assets and lease liabilities. The Company's lease agreements do not contain any material residual value guarantees or material restrictive covenants.

As most of the Company's leases do not provide an implicit rate, the Company uses its estimated incremental borrowing rate based on the information available at commencement date of the lease in determining the present value of lease payments.

The components of lease cost are shown below (in thousands):

	Three Mont	hs En	ıded
	October 31, 2020		November 2, 2019
Operating lease cost (a)	\$ 17,665	\$	16,677

#### FORWARD-LOOKING INFORMATION:

The following information should be read along with the unaudited Condensed Consolidated Financial Statements, including the accompanying Notes appearing in this report. Any of the following are "forward-looking" statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended: (1) statements in this Form 10-Q that reflect projections or expectations of our future financial or economic performance; (2) statements that are not historical information; (3) statements of our beliefs, intentions, plans and objectives for future operations, including those contained in "Management's Discussion and Analysis of Financial Condition and Results of Operations"; (4) statements relating to our operations or activities for our fiscal year ending January 30, 2021 ("fiscal 2020") and beyond, including, but not limited to, statements regarding expected amounts of capital expenditures and store openings, relocations, remodels and closures and statements regarding the potential impact of the COVID-19 pandemic and related responses and mitigation efforts on our business, results of operations and financial condition; and (5) statements relating to our future contingencies. When possible, we have attempted to identify forward-looking statements by using words such as "will," "expects," "anticipates," "approximates," "believes," "estimates," "hopes," "intends," "may," "plans," "could," "would," "should" and any variations or negative formations of such words and similar expressions. We can give no assurance that actual results or events will not differ materially from those expressed or implied in any such forward-looking statements. Forward-looking statements included in this report are based on information available to us as of the filing date of this report, but subject to known and unknown risks, uncertainties and other factors that could cause actual results to differ materially from those contemplated by the forward-looking statements. Such factors include, but are not limited to, the following: any actual or perceived deterioration in the conditions that drive consumer confidence and spending, including, but not limited to, prevailing social, economic, political and public health conditions and uncertainties, levels of unemployment, fuel, energy and food costs, wage rates, tax rates, interest rates, home values, consumer net worth and the availability of credit; changes in laws, regulations or governmental policies affecting our business, including tariffs; uncertainties regarding the impact of any governmental actions regarding, or responses to, the foregoing conditions; competitive factors and pricing pressures; our ability to predict and respond to rapidly changing fashion trends and consumer demands; our ability to successfully implement our new store development strategy to increase new store openings and our ability of any such new stores to grow and perform as expected; adverse weather, public health threats (including the COVID-19 pandemic) or similar conditions that may affect our sales or operations; inventory risks due to shifts in market demand, including the ability to liquidate excess inventory at anticipated margins; and other factors discussed under "Risk Factors" in Part I, Item 1A of our annual report on Form 10-K for the fiscal year ended February 1, 2020 ("fiscal 2019"), as amended or supplemented, and in other reports we file with or furnish to the Securities and Exchange Commission ("SEC") from time to time. We do not undertake, and expressly decline, any obligation to update any such forward-looking information contained in this report, whether as a result of new information, future events, or otherwise.

#### **CRITICAL ACCOUNTING POLICIES:**

The Company's accounting policies are more fully described in "Management's Discussion and Analysis of Financial Condition and Results of Operations" in the Company's Annual Report on Form 10-K for the fiscal year ended February 1, 2020. As disclosed in "Management's Discussion and Analysis of Financial Condition and Results of Operations," the preparation of the Company's financial statements in conformity with generally accepted accounting principles in the United States ("GAAP") requires management to make estimates and assumptions about future events that affect the amounts reported in the financial statements and accompanying notes. Future events and their effects cannot be determined with absolute certainty. Therefore, the determination of estimates requires the exercise of judgment. Actual results inevitably will differ from those estimates, and such differences may be material to the financial statements. The most significant accounting estimates inherent in the preparation of the Company's financial statements include the allowance for doubtful accounts, inventory shrinkage, the calculation of potential asset impairment, workers' compensation, general and auto insurance liabilities, reserves relating to self-insured health insurance, and uncertain tax positions.

The Company's critical accounting policies and estimates are discussed with the Audit Committee.

#### **RESULTS OF OPERATIONS:**

The following table sets forth, for the periods indicated, certain items in the Company's unaudited Condensed Consolidated Statements of Income as a percentage of total retail sales:

	Three Months Ended		Nine Months Ended		
	October 31, 2020	November 2, 2019	October 31, 2020	November 2, 2019	
Total retail sales	100.0 %	100.0 %	100.0 %	100.0 %	
Other revenue	1.1	1.1	1.3	1.1	
Total revenues	101.1	101.1	101.3	101.1	
Cost of goods sold (exclusive of depreciation)	73.3	62.6	78.6	61.3	
Selling, general and administrative (exclusive of					
depreciation)	34.8	34.2	35.8	31.3	
Depreciation	2.4	2.0	2.7	1.8	
Interest and other income	(0.5)	(0.9)	(0.9)	(0.7)	
Income/(loss) before income taxes	(8.9)	3.2	(14.9)	7.3	
Net income/(loss)	(2.4)	3.2	(9.5)	6.2	
	20	6			

#### **RESULTS OF OPERATIONS (CONTINUED):**

#### **COVID-19 Update**

The COVID-19 pandemic has created, and may continue to create, challenges and uncertainties for our business. In the first quarter of fiscal 2020, the pandemic resulted in state and local orders mandating store closures and other measures to mitigate the spread of the virus. Recently reported increases in infection rates in many areas and the onset of cooler weather raise the possibility of increased or renewed governmental measures to reduce public activity and gatherings in order to mitigate the spread of the virus, as well as continued adverse effect on consumer confidence. Responses by customers, government and the private sector have and will likely continue to adversely impact our business operations for the remainder of fiscal 2020 and possibly beyond. The extent to which the COVID-19 pandemic ultimately impacts the Company's business, financial condition, results of operations, cash flows, and liquidity may differ from management's current estimates due to inherent uncertainties regarding the duration and further spread of the outbreak, its severity, actions taken to contain the virus or treat its impact, and how quickly and to what extent normal economic and operating conditions can resume.

Beginning March 19, 2020, the Company temporarily closed all Cato, It's Fashion, It's Fashion Metro and Versona stores. In addition, the Company suspended its quarterly dividend, significantly reduced capital expenditures and reduced its SG&A expense through the reduction of non-payroll expenses, as well as furloughed associates and in certain instances eliminated positions primarily at its corporate office. Beginning on May 1, 2020, the Company began to re-open stores based on the pertinent state and local orders. As of June 15, 2020, all stores have re-opened. Although all stores have re-opened, stores are operating at reduced hours and stores may be temporarily closed or subject to further operating restrictions in compliance with local regulations or in response to public health guidance due to COIVD-19. There is significant uncertainty around the duration, breadth and severity of continued business disruptions related to COVID-19, as well as its impact on the U.S. economy, consumer willingness to visit malls and shopping centers, and associate staffing for our stores. At this time, the possible effects of national, state or local action, legislation, guidelines or programs that attempt to mitigate the spread of COVID-19 or address its economic effects on our customers, suppliers or the Company are also uncertain.

While the Company currently anticipates that our results for the remainder of fiscal 2020 will be adversely impacted, the extent to which COVID-19 impacts the Company's results will depend on future developments, which are highly uncertain, including possible new information and understanding about the severity of COVID-19, related potential economic impacts to customers and suppliers, and the effect of actions taken to contain it or mitigate its impact.

#### Comparison of the Three and Nine Months ended October 31, 2020 with November 2, 2019

Total retail sales for the third quarter were \$149.2 million compared to last year's third quarter sales of \$189.4 million, a 21% decrease. The Company's sales decrease in the third quarter of fiscal 2020 is primarily due to a 23% decrease in same-store sales, partially offset by sales from new store openings. Sales in the third quarter were negatively impacted by reduced operating hours compared to 2019, higher amounts of markdowns and temporary store closings due to COVID-19 cases and hurricanes. For the nine months ended October 31, 2020, total retail sales were \$414.3 million compared to last year's comparable nine month sales of \$627.8 million, a 34% decrease. Sales in the first nine months of fiscal 2020 decreased primarily due to a 35% decrease in same-store sales, partially offset by sales from new store openings. Sales for the nine months ended October 31, 2020 were negatively impacted primarily by store closures in the first quarter, phased re-opening of stores in the second quarter, reduced store hours and high amounts of markdowns. Same-store

sales include stores that have been open more than 15 months. Stores that have been relocated or expanded are also included in the same-store sales calculation after they have been open more than 15 months. The method of calculating same-store sales varies across the retail industry. As a result, our same-store sales calculation may not be comparable to similarly titled measures reported by other companies. E-commerce sales were less than 6% of sales for the nine months ended October 31, 2020 and are included in the same-store sales calculation. Total revenues, comprised of retail sales and other revenue (principally finance charges and late fees on customer accounts receivable and layaway fees), were \$150.8 million and \$419.7 million for the three and nine months ended October 31, 2020, compared to \$191.5 million and \$634.5 million for the three and nine months ended November 2, 2019, respectively. The Company operated 1,347 stores at October 31, 2020 compared to 1,298 stores at the end of last year's third quarter. During the first nine months of fiscal 2020, the Company closed 10 stores. In total, the Company opened 76 stores, which had leases prior to the COVID-19 pandemic, and expects to close approximately 40 stores in fiscal 2020.

Credit revenue of \$0.6 million represented 0.4% of total revenues in the third quarter of fiscal 2020, compared to 2019 credit revenue of \$0.9 million or 0.5% of total revenues. Credit revenue is comprised of interest earned on the Company's private label credit card portfolio and related fee income. Related expenses principally include payroll, postage and other administrative expenses and totaled \$0.4 million in the third quarter of fiscal 2020, compared to last year's third quarter expense of \$0.4 million.

Other revenue in total, as included in total revenues, was \$1.6 million and \$5.4 million for the three and nine months ended October 31, 2020, respectively, compared to \$2.2 million and \$6.7 million for the prior year's comparable three and nine month periods. The overall decrease in the three and nine months ended October 31, 2020 is primarily due to decreases in finance and layaway charges, partially offset by increases in e-commerce shipping revenues.

Cost of goods sold was \$109.4 million, or 73.3% of retail sales and \$325.7 million, or 78.6% of retail sales for the three and nine months ended October 31, 2020, respectively, compared to \$118.6 million, or 62.6% of retail sales and \$385.1 million, or 61.3% of retail sales for the comparable three and nine month periods of fiscal 2019. The overall increase in cost of goods sold as a percent of retail sales for the third quarter of fiscal 2020 resulted primarily from an increase in markdown sales due to liquidating spring and summer merchandise, goods marked out of stock, and deleveraging occupancy, distribution and buying costs. Cost of goods sold includes merchandise costs (net of discounts and allowances), buying costs, distribution costs, occupancy costs, freight and inventory shrinkage. Net merchandise costs and in-bound freight are capitalized as inventory costs. Buying and distribution costs include payroll, payroll-related costs and operating expenses for the buying departments and distribution center. Occupancy costs include rent, real estate taxes, insurance, common area maintenance, utilities and maintenance for stores and distribution facilities. Total gross margin dollars (retail sales less cost of goods sold exclusive of depreciation) decreased by 43.7% to \$39.8 million for the third quarter of fiscal 2020 and decreased by 63.5% to \$88.5 million for the first nine months of fiscal 2020, compared to \$70.7 million and \$242.7 million for the prior year's comparable three and nine months of fiscal 2019. Gross margin as presented may not be comparable to those of other entities.

Selling, general and administrative expenses ("SG&A") primarily include corporate and store payroll, related payroll taxes and benefits, insurance, supplies, advertising, bank and credit card processing fees. SG&A expenses were \$51.9 million, or 34.8% of retail sales and \$148.4 million, or 35.8% of retail sales for the third quarter and first nine months of fiscal 2020, respectively, compared to \$64.7 million, or 34.2% of retail sales and \$196.7 million, or 31.3% of retail sales for the prior year's comparable three and nine month periods. The overall decrease in SG&A expense for the third quarter is primarily attributable to lower store expenses due to reduced store operating hours, lower corporate expenses and elimination of incentive compensation, partially offset by an increase in store impairment charges. For the first nine months of fiscal 2020, the overall

decrease in SG&A expense was primarily attributable to lower store expenses due to stores being closed, phased store re-opening in the second quarter, reduced store operating hours, lower corporate expenses and reduction of incentive compensation, partially offset by higher store impairment charges.

Depreciation expense was \$3.6 million, or 2.4% of retail sales and \$11.1 million, or 2.7% of retail sales for the third quarter and first nine months of fiscal 2020, respectively, compared to \$3.8 million, or 2.0% of retail sales and \$11.5 million or 1.8% of retail sales for the comparable three and nine month periods of fiscal 2019, respectively.

Interest and other income was \$0.8 million, or 0.5% of retail sales and \$3.6 million, or 0.9% of retail sales for the three and nine months ended October 31, 2020, respectively, compared to \$1.7 million, or 0.9% of retail sales and \$4.5 million, or 0.7% of retail sales for the comparable three and nine month periods of fiscal 2019, respectively. The decrease for the first nine months of fiscal 2020 compared to 2019 is primarily attributable to a decrease in short-term investments and lower interest rates.

Income tax benefit was \$9.7 million and \$22.7 million for the third quarter and first nine months of fiscal 2020, respectively, compared to income tax expense of \$0.1 million and \$6.5 million for the comparable three and nine month periods of fiscal 2019, respectively. For the first nine months of 2020, the Company's effective tax rate was 36.7% (Benefit) compared to 14.3% (Expense) for the first nine months of 2019. The increase in the 2020 year-to-date tax rate was primarily due to the federal net operating loss carryback provisions of the Coronavirus Aid, Relief and Economic Security Act (CARES Act) and release of reserves for uncertain tax positions due to expiration of statute of limitations, offset by valuation allowances against state income net operating losses, less income tax credits, and an increase in the reserves for uncertain tax positions specific to state income taxes recorded in the first quarter of 2020.

The Company assessed the likelihood that deferred tax assets related to state net operating loss carryforwards will be realized in light of the adverse impact on the Company's financial statements and operations due to COVID-19. Based on this assessment, the Company concluded that it is more likely than not that the company will not be able to realize the state net operating losses and, accordingly, has recorded a valuation allowance against the existing deferred tax assets.

The annual effective tax rate for the current fiscal year is impacted by the ability to carryback federal net operating losses due to the CARES Act, partially offset by changes in management's judgment regarding the ability to realize deferred tax assets, primarily state income net operating losses generated in the current fiscal year. The Company has factored the realizability of these deferred tax assets generated as a result of projected current year losses into its estimated annual effective rate for the current year. To the extent that actual results and/or events differ from the predicted results, the Company may continue to see effects on the annual effective tax rate.

#### LIQUIDITY, CAPITAL RESOURCES AND MARKET RISK:

The Company believes that its cash, cash equivalents and short-term investments, together with cash flows from operations and borrowings available under its revolving credit agreement, will be adequate to fund the Company's regular operating requirements and expected capital expenditures for fiscal 2020 and the next 12 months.

Cash used by operating activities during the first nine months of fiscal 2020 was \$26.1 million as compared to \$49.3 million provided in the first nine months of fiscal 2019. Cash used by operating activities for the first nine months of fiscal 2020 was primarily attributable to net losses adjusted for depreciation and changes in

working capital. The decrease in cash provided of \$75.4 million for the first nine months of fiscal 2020 as compared to the first nine months of fiscal 2019 was primarily due to a net loss versus net income, an increase in accounts receivable primarily related to income taxes and an increase in prepaid expenses, partially offset by lower merchandise inventories and store impairment charges.

At October 31, 2020, the Company had working capital of \$117.8 million compared to \$163.5 million at February 1, 2020. The decrease in working capital is primarily due to reduction in short-term investments and lower inventories, partially offset by higher accounts receivables and lower accrued liabilities.

At October 31, 2020 and February 1, 2020, the Company had an unsecured revolving credit agreement, which provides for borrowings of up to \$35.0 million, less the value of revocable letters of credit discussed below. The revolving credit agreement is committed until May 2023. The credit agreement contains various financial covenants and limitations, including the maintenance of specific financial ratios with which the Company was in compliance as of October 31, 2020. There were no borrowings outstanding under the credit facility as of October 31, 2020 and February 1, 2020.

Expenditures for property and equipment totaled \$11.2 million in the first nine months of fiscal 2020, compared to \$4.9 million in last fiscal year's first nine months. The expenditures for the first nine months of fiscal 2020 were primarily for additional investments in stores, distribution center and information technology. For the full fiscal 2020 year, the Company expects to invest approximately \$13.0 million for capital expenditures.

Net cash provided by investing activities totaled \$57.9 million in the first nine months of fiscal 2020 compared to \$22.2 million used in investing activities in the comparable period of 2019. The increase in net cash provided in 2020 is primarily attributable to the increase in net sales of short-term investments, partially offset by expenditures for property and equipment.

Net cash used in financing activities totaled \$24.3 million in the first nine months of fiscal 2020 compared to \$28.9 million used in the comparable period of fiscal 2019. The decrease was primarily due to lower dividend payments, partially offset by higher share repurchase amounts.

As of October 31, 2020, the Company had 691,856 shares remaining in open authorizations under its share repurchase program. The Company temporarily suspended dividends in the first quarter of 2020.

The Company does not use derivative financial instruments.

The Company's investment portfolio was primarily invested in corporate bonds and tax-exempt and taxable governmental debt securities held in managed accounts with underlying ratings of A or better at October 31, 2020 and February 1, 2020. The state, municipal and corporate bonds have contractual maturities which range from two weeks to five years. The U.S. Treasury Notes and Certificates of Deposit have contractual maturities which range from two weeks to three years. These securities are classified as available-for-sale and are recorded as Short-term investments, Restricted cash and Restricted short-term investments on the accompanying Condensed Consolidated Balance Sheets. These assets are carried at fair value with unrealized gains and losses reported net of taxes in Accumulated other comprehensive income. The asset-backed securities are bonds comprised of auto loans and bank credit cards that carry AAA ratings. The auto loan asset-backed securities are backed by static pools of auto loans that were originated and serviced by captive auto finance units, banks or finance companies. The bank credit card asset-backed securities are backed by revolving pools of credit card receivables generated by account holders of cards from American Express, Citibank, JPMorgan Chase, Capital One and Discover.

Additionally, at October 31, 2020, the Company had \$1.5 million of corporate equities and deferred compensation plan assets of \$10.5 million. At February 1, 2020, the Company had \$0.7 million of corporate equities and deferred compensation plan assets of \$10.5 million. All of these assets are recorded within Other assets in the Condensed Consolidated Balance Sheets.

See Note 7, Fair Value Measurements.

See Note 8, Recent Accounting Pronouncements.

### THE CATO CORPORATION QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

#### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK:

The Company is subject to market rate risk from exposure to changes in interest rates based on its financing, investing and cash management activities, but the Company does not believe such exposure is material.

#### **ITEM 4. CONTROLS AND PROCEDURES:**

We carried out an evaluation, with the participation of our Principal Executive Officer and Principal Financial Officer, of the effectiveness of our disclosure controls and procedures as of October 31, 2020. Based on this evaluation, our Principal Executive Officer and Principal Financial Officer concluded that, as of October 31, 2020, our disclosure controls and procedures, as defined in Rule 13a-15(e), under the Securities Exchange Act of 1934 (the "Exchange Act"), were effective to ensure that information we are required to disclose in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to our management, including our Principal Executive Officer and Principal Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

#### CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING:

No change in the Company's internal control over financial reporting (as defined in Exchange Act Rule 13a-15(f)) has occurred during the Company's fiscal quarter ended October 31, 2020 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

### PART II OTHER INFORMATION ITEM 1. LEGAL PROCEEDINGS:

Not Applicable

#### ITEM 1A. RISK FACTORS:

In addition to the other information in this report, you should carefully consider the factors discussed in Part I, "Item 1A. Risk Factors" in our Annual Report on Form 10-K for our fiscal year ended February 1, 2020, as supplemented by the risk factor set forth below. These risks could materially affect our business, financial condition or future results; however, they are not the only risks we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial may also materially adversely affect our business, financial condition or results of operations.

The Company has updated the following risk factor related to COVID-19:

#### The outbreak of COVID-19 has and will adversely affect our business, financial condition and results of operations.

The COVID-19 pandemic has adversely impacted the Company's business, financial condition and operating results through the first nine months of fiscal 2020, and we expect that it will continue to do so throughout the remainder of fiscal 2020 and possibly beyond. Adverse financial impacts associated with the outbreak include, but are not limited to, (i) lower net sales in markets affected by the actual or potential outbreak, whether due to state and local orders to close stores, reductions in store traffic and customer demand, labor shortages, or all, (ii) lower net sales caused by the delay of inventory production and fulfillment, (iii) and incremental costs associated with efforts to mitigate the effects of the outbreak, including increased freight and logistics costs and other expenses.

The spread of COVID-19 has caused state and local governments to issue orders mandating store closures and other measures to mitigate the spread of the virus. In addition public health officials have issued precautions and guidance intended to reduce the spread of the virus, including particular cautions about congregating in large groups or heavily populated areas, such as malls and shopping centers. We temporarily closed all Cato, It's Fashion, It's Fashion Metro and Versona stores March 19, 2020. Beginning on May 1, 2020, we began to re-open stores based on the pertinent state and local orders. As of June 15, 2020, all stores have re-opened, but are operating at reduced hours. Recently reported increases in infection rates in many areas and the onset of cooler weather raise the possibility of increased or renewed governmental measures or public health guidance to reduce public activity and gatherings in order to mitigate the spread of the virus, as well as continued adverse effect on consumer confidence. There is significant uncertainty around the breadth and severity of business disruptions related to COVID-19, as well as its impact on the global and U.S. economy, consumer willingness to visit malls and shopping centers, and appropriate associate staffing levels for our stores. At this time, the possible effects of national, state or local action, legislation, guidelines or programs that attempt to mitigate the spread of COVID-19 or address its economic effects on our customers, suppliers or the Company are also uncertain.

While the Company currently anticipates that our results for the remainder of fiscal 2020 will be adversely impacted, the extent to which COVID-19 impacts the Company's results will depend on future developments, which are highly uncertain, including possible new information and understanding about the severity of COVID-19, related potential economic impacts to customers and suppliers and the effect of actions taken to contain it or mitigate its impact.

Future outbreaks of disease or similar public health threats, or the fear of such an occurrence, may also have a material adverse effect on the Company's business, financial condition and operating results.

### PART II OTHER INFORMATION ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS:

The following table summarizes the Company's purchases of its common stock for the three months ended October 31, 2020:

#### ISSUER PURCHASES OF EQUITY SECURITIES

			Total Number of	Maximum Number
			Shares Purchased as	(or Approximate Dollar
	Total Number	Average	Part of Publicly	Value) of Shares that may
Fiscal	of Shares	Price Paid	Announced Plans or	Yet be Purchased Under
Period	Purchased	per Share (1)	Programs (2)	The Plans or Programs (2)
August 2020	85,175	\$ 7.16	85,175	
September 2020	217,670	7.93	217,670	
October 2020	733,765	7.04	733,765	
Total	1,036,610	\$ 7.24	1,036,610	691,856

- (1) Prices include trading costs.
- (2) As of August 1, 2020, the Company's share repurchase program had 728,466 shares remaining in open authorizations. During the third quarter ended October 31, 2020, the Company repurchased and retired 1,036,610 shares under this program for approximately \$7,504,520 or an average market price of \$7.24 per share. On August 27, 2020, the Board of Directors authorized an increase in the Company's share repurchase program of 1 million shares. As of October 31, 2020, the Company had 691,856 shares remaining in open authorizations. There is no specified expiration date for the Company's repurchase program. Additionally, on November 19, 2020, the Board of Directors authorized an increase in the Company's share repurchase program of 1.5 million shares.
